حضرة صاحب الجلالة الملك حمد بن عيسى آل خليفة

ملك البلاد المعظم

حفظه الله ورعاه

صاحب السمو الملكي الأمير سلمان بن حمد آل خليفة

ولي العهد نائب القائد الأعلى رئيس مجلس الوزراء

حفظه الله ورعاه

المغفور له بإذن الله تعالى

الأمير الراحل الشيخ عيسى بن سلمان آل خليفة

Agriculture, animal production, and fishing

Business Activity Name	ISIC 4
Crop Production and Plant Propagation	011
Animal production	014-1
Animal production - production of eggs	014-2
Support activities for crop production	0161
Support activities for animal production	0162
Aquaculture	032

Mining and quarrying

Business Activity Name	ISIC 4
Extraction of crude petroleum and natural gas	06
Quarrying of stone, sand and clay	081-1
Quarrying of stone, sand and clay - Extraction of Marine Sand	081-2
Other Mining and quarrying	089
Support activities for petroleum and natural gas extraction - Technical services for oil and gas	0910-2
Support activities for other mining and quarrying	0990

Manufacturing

Business Activity Name	ISIC 4
Processing and preserving of meat - Workshop	101-1
Processing and preserving of meat - Factory	101-2
Processing and preserving of fish, crustaceans and molluscs - Workshop	102-1

Manufacturing

Business Activity Name	ISIC 4
Processing and preserving of fish, crustaceans and molluscs - Factory	102-2
Processing and preserving of fruit and vegetables - Workshop	103-1
Processing and preserving of fruit and vegetables - Factory	103-2
Manufacture of vegetable, animal, and fish oils and fats - Workshop	104-1
Manufacture of vegetable, animal, and fish oils and fats - Factory	104-2
Manufacture of dairy products - Workshop	105-1
Manufacture of dairy products - Factory	105-2
Manufacture of grain mill products, starches and starch products - Workshop	106-1
Manufacture of grain mill products, starches and starch products - Factory	106-2
Manufacture of other food products - Workshop	107-1
Manufacture of other food products - Factory	107-2
Manufacture of bakery products - Workshop	1071-1
Manufacture of bakery products - Factory	1071-2
Traditional Baker	10711
Manufacture of cocoa, chocolate and sugar confectionery - Workshop	1073-1
Manufacture of cocoa, chocolate and sugar confectionery - Factory	1073-2
Manufacture of prepared animal feeds - Workshop	108-1
Manufacture of prepared animal feeds - Factory	108-2
Manufacture of soft drinks; production of mineral waters and other bottled waters - Workshop	1104-1
Manufacture of soft drinks; production of mineral waters and other bottled waters - Factory	1104-2

Manufacturing

Business Activity Name	ISIC 4
Manufacturing and packaging of all kinds of Cigarette tobacco	12001
Manufacturing and packaging of all kinds of honeyed tobacco	12002
Manufacture of textiles - Workshop	13-1
Manufacture of textiles - Factory	13-2
Manufacture of wearing apparel - Workshop	140-1
Manufacture of wearing apparel - Factory	140-2
Apparel Tailoring Activities	14104
Manufacture of leather and related products - Workshop	15-1
Manufacture of leather and related products - Factory	15-2
Manufacture of wood and of products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials	160
Carpentry Workshop	16225
Manufacture of paper and paper products - Workshop	17-1
Manufacture of paper and paper products - Factory	17-2
Printing	1811
Other Printing/ Engraving Services	18119
Service activities related to printing	1812
Reproduction of recorded media	182
Manufacture of coke oven products	191
Manufacture of refined petroleum products	192
Manufacture of basic chemicals	2011
Manufacture of fertilizers and nitrogen compounds - Workshop	2012-1
Manufacture of fertilizers and nitrogen compounds - Factory	2012-2
Manufacture of plastics and synthetic rubber in primary forms - Workshop	2013-1

Manufacturing

Business Activity Name	ISIC 4
Manufacture of plastics and synthetic rubber in primary forms - Factory	2013-2
Manufacture of pesticides and other agrochemical products	2021
Manufacture of paints, varnishes and similar coatings, printing ink and mastics - Workshop	2022-1
Manufacture of paints, varnishes and similar coatings, printing ink and mastics - Factory	2022-2
Manufacture of soap and detergents, cleaning and polishing preparations, perfumes and toilet preparations - Workshop	2023-1
Manufacture of soap and detergents, cleaning and polishing preparations, perfumes and toilet preparations - Factory	2023-2
Manufacture of other chemical products - Workshop	2029-1
Manufacture of other chemical products - Factory	2029-2
Manufacture of man-made fibres	203
Manufacture of basic pharmaceutical products and pharmaceutical preparations - Workshop	21-1
Manufacture of basic pharmaceutical products and pharmaceutical preparations - Factory	21-2
Manufacture of rubber products - Workshop	221-1
Manufacture of rubber products - Factory	221-2
Manufacture of plastics products - Workshop	222-1
Manufacture of plastics products - Factory	222-2
Manufacture of glass, fiberglass and their products - Workshop	231-1
Manufacture of glass, fiberglass and their products - Factory	231-2
Cutting of glass and mirrors	231052
Manufacture of non-metallic mineral products - Workshop	239-1
Manufacture of non-metallic mineral products - Factory	239-2

Manufacturing

Business Activity Name	ISIC 4
Manufacture of basic iron and steel	241
Manufacture of basic precious and other non-ferrous metals - Workshop	242-1
Manufacture of basic precious and other non-ferrous metals - Factory	242-2
Casting of metals - Workshop	243-1
Casting of metals - Factory	243-2
Manufacture of structural metal products - Workshop	2511-1
Manufacture of structural metal products - Factory	2511-2
Manufacture of tanks, reservoirs and containers of metal - Workshop	2512-1
Manufacture of tanks, reservoirs and containers of metal - Factory	2512-2
Manufacture of steam generators, except central heating hot water boilers	2513
Forging, pressing, stamping and roll-forming of metal; powder metallurgy - Workshop	2591-1
Forging, pressing, stamping and roll-forming of metal; powder metallurgy - Factory	2591-2
Welding, Blacksmith, and Fabrication Workshop	259190
Treatment and coating of metals; machining - Workshop	2592-1
Treatment and coating of metals; machining - Factory	2592-2
Manufacture of other fabricated metal products - Workshop	2599-1
Manufacture of other fabricated metal products - Factory	2599-2
Manufacture of computer, electronic and optical products - Workshop	26-1
Manufacture of computer, electronic and optical products - Factory	26-2

Manufacturing

Business Activity Name	ISIC 4
Manufacture of electric motors, generators, transformers and electricity distribution and control apparatus	271
Manufacture of batteries and accumulators	272
Manufacture of wiring and wiring devices	273
Manufacture of wiring devices	2733
Manufacture of electric lighting equipment	274
Manufacture of domestic appliances	275
Manufacture of other electrical equipment	279
Manufacture of machinery and equipment	28
Manufacture of motor vehicles	291
Manufacture of bodies (coachwork) for motor vehicles; manufacture of trailers and semi-trailers	292
Manufacture of parts and accessories for motor vehicles	293
Auto-Upholstery	293093
Ship Building and Repair Services	30111
Construction of Floating structures	30112
Building of Pleasure and sporting boats	3012
Manufacture of railway locomotives and rolling stock	302
Manufacture of air and spacecraft and related machinery	303
Manufacture of motorcycles	3091
Manufacture of bicycles and invalid carriages	3092
Manufacture of other transport equipment	3099
Manufacture of furniture - Workshop	310-1
Manufacture of furniture - Factory	310-2
Furniture upholstery and curtain making	31004

Manufacturing

Business Activity Name	ISIC 4
Manufacture of jewellery, bijouterie and related articles - Workshop	321-1
Manufacture of jewellery, bijouterie and related articles - Factory	321-2
Manufacture of musical instruments - Workshop	322-1
Manufacture of musical instruments - Factory	322-2
Manufacture of sports goods	323
Manufacture of games and toys - Workshop	324-1
Manufacture of games and toys - Factory	324-2
Manufacture of "scale" models and similar recreational models - Workshop	32405-1
Manufacture of "scale" models and similar recreational models - Factory	32405-2
Manufacture of medical and dental instruments and supplies - Workshop	325-1
Manufacture of medical and dental instruments and supplies - Factory	325-2
Manufacture of stationary, art and handcraft tools - Workshop	32901-1
Manufacture of stationary, art and handcraft tools - Factory	32901-2
Manufacture of protective safety equipment	32906
Manufacture of miscellaneous articles - Workshop	32907-1
Manufacture of miscellaneous articles - Factory	32907-2
Repair of fabricated metal products	3311
Repair of Machinery and equipment	3312
Repair of electronic, electrical, and optical equipment	3313
Repair and routine maintenance of ships	331501-1
Repair and routine maintenance of ships - Diving Services related to Marine Activities	331501-2

Manufacturing

Business Activity Name	ISIC 4
Repair and routine maintenance pleasure boats	331502
Repair and maintenance of aircraft and aircraft engines - Aircraft Line Maintenance Services	331504-1
Repair and maintenance of aircraft and aircraft engines - Aircraft Heavy Maintenance Services	331504-2
Repair and maintenance of aircraft and aircraft engines - Aircraft Washing Services	331504-3
Repair and maintenance of other Industrial equipment	3319
Installation of industrial machinery and equipment	332

Electricity, gas, steam and air conditioning supply

Business Activity Name	ISIC 4
Electric Power Generation	351001
Electric Power Transmission and Distribution	351002
Production & Distribution of Natural Gas	352
Steam and air conditioning supply	353

Water supply; sewerage, waste management and remediation activities

Business Activity Name	ISIC 4
Water collection, treatment and supply	36-1
Water collection, treatment and supply - Drilling of Artesian Water Wells	36-2
Sewerage	37

Water supply; sewerage, waste management and remediation activities

Business Activity Name	ISIC 4
Waste collection, treatment and disposal activities	381
Materials recovery - Workshop	383-1
Materials recovery - Factory	383-2
Materials recovery - Refrigerant Reclamation	383-3
Ship Recycling Services	383003
Treatment of Oil Waste	383009
Remediation activities and other waste management services	39-1
Remediation activities and other waste management services - Oil spills cleaning Service	39-2

Construction

Business Activity Name	ISIC 4
Construction of buildings	41
Construction of roads and railways	421
Construction of utility projects	422
Construction of other civil engineering projects	429
Demolition and site preparation	431
Offshore Reclamation	43129
Electrical Installation	4321
Heat, Air-Conditioning and Refrigeration Installation and Maintenance	43221
Plumbing and Sanitary ware fixing	43223
Other construction installation	4329
Building completion, finishing, and decor	433

Construction

Business Activity Name	ISIC 4
Other specialized construction activities	439

Sale/Trading Activities; repair of motor vehicles and motorcycles

Business Activity Name	ISIC 4
Sale/Trade of motor vehicles	451
Maintenance and repair of motor vehicles	452
Car Washing and Polishing	45205
Sale/Trade of motor vehicle parts and accessories	453
Sale/Trade of motorcycles, including mopeds	45401
Sale/Trade of parts and accessories for motorcycles	45402
Maintenance and repair of motorcycles	45403
Trading on a fee or exchange or on contract basis or auctions	461
Sale/Trade of agricultural raw materials	46201
Sale/Trade of animals	46205-1
Sale/Trade of animals - Fish/Marine species	46205-2
Sale/Trade of leather (untanned amimal skin)	46206
Sale/ Veterinary Medicines	4649511
Sale and installation of telecommunications equipment and parts	4652
Sale/Trade of agricultural machinery, equipment and supplies	4653
Sale/Trade in other machinery and equipment and parts	4659-1
Sale/Trade in other machinery and equipment and parts - Medical Devices, Supplies and Related Spare Parts	4659-2
Sale/Trade of Transportation spare parts and equipment except for Motor Vehicles, Motor cycles.	46593-1

Sale/Trading Activities; repair of motor vehicles and motorcycles

Business Activity Name	ISIC 4
Sale/Trade of Transportation spare parts and equipment except for Motor Vehicles, Motor cycles. - Import, export and sale of aircraft spare parts	46593-2
Sale/Trade of solid, liquid and gaseous fuels and related products - Collecting used oil and waste lubricating oils	4661-1
Sale/Trade of solid, liquid and gaseous fuels and related products - Specialty petroleum products import	4661-2
Sale/Trade of solid, liquid and gaseous fuels and related products - Exporting blended petroleum products.	4661-5
Sale/Trade of solid, liquid and gaseous fuels and related products - Exporting recycled used oils, lubricants, and greases	4661-6
Sale/Trade of solid, liquid and gaseous fuels and related products - Direct export of petroleum products	4661-7
Sale/Trade of solid, liquid and gaseous fuels and related products - Aircraft Refueling Services	4661-8
Sale/Trade in metals and metal ores	4662
Sale/Trade of construction materials, hardware, plumbing and heating equipment and supplies	4663
Sale/Trading in industrial chemicals	46691-1
Sale/Trading in industrial chemicals - Substances subject to the convention on the prohibition of Chemical Weapons	46691-2
Sale/Trading in industrial chemicals - Sales/Trading in Refrigerants	46691-3
Sale/Trading in fertilizers,Soil Conditioners and Pesticides	46692
Sale/Trading in cleaning materials	46693
Sale/Trading in plastic material and rubber products	46694
Sale/Trading in paper and cardboard products	46695
Sale/Trading in waste and scrap	46699
Sale/Trading in other industrial products/ raw material	466999

Sale/Trading Activities; repair of motor vehicles and motorcycles

Business Activity Name	ISIC 4
General Trade	469-1
General Trade - including sale/trade of Food and Beverages	469-2
General Trade - including sale/trade of tobacco products	469-3
General Trade - including sale/trade of Food, Beverages, and tobacco products	469-4
Authorised Distributor	4699
Sale/Trade of Food and Beverages	4721-1
Sale/Trade of Food and Beverages - Fish/Marine species	4721-2
Sale/Trade of Food and Beverages - Health Food	4721-3
Sale of tobacco products	4723
Sale of fuel in specialized stores - Land Service Station	473-1
Sale of fuel in specialized stores - Marine Service Station	473-2
Sale/Trade of information, and communications equipment and related software	474
Sale/Trade of Video Games	47412
Sale/Trade of textiles	4751
Sale/Trade of carpets, rugs, wall and floor coverings	4753
Sale/Trade of Furniture and all household articles	47591
Sale/Trade of Electrical and electronic Household appliances	47592
Sale/Trade of household utensils, cutlery, glassware, and related items	47593
Sale/Trade of lighting equipment and articles of lighting	47594
Sale/Trade of Musical Instruments	47595
Sale/Trade of Safety Systems	47596
Sale/Trade of books, magazines, newspapers	47611

Sale/Trading Activities; repair of motor vehicles and motorcycles

Business Activity Name	ISIC 4
Sale/Trade of Stationary, arts and crafts, and office/professional tools and apparatus	47612
Sale/Tradeof music and video recordings, and cinematographic films	4762
Sale/Trade of sporting equipment	4763
Sale/Trade of games and toys	4764
Sale/Trade of clothing, footwear, apparel accessories, and leather articles	4771
Sale/Trade of pharmaceutical and medical goods - Pharmacy (Importing)	4772-1
Sale/Trade of pharmaceutical and medical goods - Pharmacy (non- importing)	4772-2
Sale/Trade of pharmaceutical and medical goods - Hospital Pharmacy	4772-3
Sale/Trade of pharmaceutical and medical goods - Sale of Simple Medicine	4772-4
Sale/Trade of pharmaceutical and medical goods - Sale of Alternative medicine products	4772-5
Sale/Trade of pharmaceutical and medical goods - Scientific Office or Pharmaceutical Services Center	4772-6
Sale/Tradeof perfumery, cosmetic and toiletries	47723
Sale/Trade of photographic, optical and precision equipment	47731
Sale/Trade of optical goods; Activities of Opticians	47732
Sale/Trade of jewellery and related articles - Gold and Precious Jewellery	47733-1
Sale/Trade of jewellery and related articles - Silver and Related Articles	47733-2
Sale/Trade Pet/ Animal food and accessories	477341
Sale/Trade of flowers, plants,and seeds	47735-1

Sale/Trading Activities; repair of motor vehicles and motorcycles

Business Activity Name	ISIC 4
Sale/Trade of souvenirs, craft work, religious articles, stamps and coins; Activities of commercial art galleries	47736-1
Sale/Trade of souvenirs, craft work, religious articles, stamps and coins; Activities of commercial art galleries - Crafts activities	47736-2
Sale/Trade of souvenirs, craft work, religious articles, stamps and coins; Activities of commercial art galleries - Sale/Trade of artwork in art galleries	47736-3
Sale of household fuel oil, coal and fuel wood - (excluding gas cylinders)	47737-1
Sale of household fuel oil, coal and fuel wood - LPG Bottling Stations	47737-2
Sale of household fuel oil, coal and fuel wood - LPG Cylinder Distribution	47737-4
Sale of household fuel oil, coal and fuel wood - Refilling of Refrigerant Cylinders	47737-5
Sale of second-hand goods	4774
Retail sale via Internet	4791
In flight sales services	479991

Transportation and storage

Business Activity Name	ISIC 4
Passenger rail transport, interurban	4911
Freight rail transport	4912
Passenger land transport - Transport of passengers (Domestic)	49211-1
Passenger land transport - Transport of passengers (International)	49211-2
Passenger land transport - Public Transportation	49211-3

Transportation and storage

Business Activity Name	ISIC 4
Taxi - Taxi	49221-1
Taxi - Call Taxi	49221-2
Freight transport by road - Internal Transport of goods	4923-1
Freight transport by road - International Transport of goods	4923-2
Sea and coastal passenger water transport	5011
Sea and coastal freight water transport - Ship Management and operation Services	5012-1
Sea and coastal freight water transport - Ports, Maritime and/or Logistics Service in Ports and Private Jetties	5012-2
Renting of barge, tug boats and ships	502103
Passenger Air Transport - Schedule Passengers airline services	5110-1
Passenger Air Transport - Non-schedule passengers operators services	5110-2
Passenger Air Transport - Private Executive Operators Services	5110-3
Passenger Air Transport - Low Cost Carrier services	5110-4
Passenger Air Transport - Air Taxi Services	5110-5
Freight air transport - Schedule cargo airline services	5120-1
Freight air transport - Non schedule cargo operators services	5120-2
Warehousing and storage	521-1
Warehousing and storage - Storage of Food Items	521-2
Warehousing and storage - Storage of Pharmaceutical products	521-3
Warehousing and storage - Storage of Medical Devices	521-4
Other service activities incidental to land transportation- Provision of smart applications for public transport activities	52210
Operating of Car Parks	522103
Towing and Road Side Assistance	522105

Transportation and storage

Business Activity Name	ISIC 4
Valet Parking Services	522110
Service activities incidental to water transportation - Management and Operation of Ports and Private Jetties	52220-1
Service activities incidental to water transportation - Management and Operation of Dry Dock	52220-2
Service activities incidental to water transportation - Towage	52220-3
Service activities incidental to water transportation - Navigational Aid Services	52220-4
Service activities incidental to water transportation - Bunkering Services	52220-5
Service activities incidental to water transportation - Pilotage	52220-6
Operating parks for Boats and Yachts	522209
Service activities incidental to air transportation - Airport Operator	5223-1
Service activities incidental to air transportation - Aircraft Handling Services Airlines	5223-2
Service activities incidental to air transportation - Aircraft Handling Services for Cargo	5223-3
Service activities incidental to air transportation - Private Aircraft Handling Services	5223-4
Service activities incidental to air transportation - Passenger Services	5223-5
Service activities incidental to air transportation - Airport Lounge Operations	5223-6
Service activities incidental to air transportation - Air and Ground Telecommunications Services for aircrafts	5223-7
Service activities incidental to air transportation - Areal Work air transport Operator services	5223-8
Cargo handling	5224-1

Transportation and storage

Business Activity Name	ISIC 4
Cargo handling - Stevedoring	5224-2
Cargo Clearance	522901
Sea Freight Agent	5229021
Shipping Agent	5229022
Air Cargo Agent	522903
Goods re-export and other logistics value add services	5229091
Transport and storage of currency and precious items	5229092
Courier Services - Local Courier and Express Operators up to 30 Kg	532-1
Courier Services - International Courier and Express Companies up to 30 Kg	532-2
Courier Services - Distribution of newspapers and magazines and promotional materials transport companies	532-3

Accommodation and food service activities

Business Activity Name	ISIC 4
Short term accommodation activities	551-1
Short term accommodation activities - Floating Tourist Hotel	551-2
Other accommodation	559
Food and beverage service activities	5610-1
Food and beverage service activities - With Sheesha	5610-2
Food and beverage service activities - Restaurants for Tourist Services	5610-3
Food and beverage service activities - Floating Tourist Restaurant	5610-4

Accommodation and food service activities

Business Activity Name	ISIC 4
Food and beverage service activities - Mobile Food Service Activities	5610-5
Catering Services	5621-1
Catering Services - Aircraft Catering Services	5621-2
Catering Services - Ship Chandelling Agent	5621-3
Food Transportation Companies	56291
Arranging and Assembling Tours	7990

Information and communication

Business Activity Name	ISIC 4
Publishing of books, periodicals and other publishing activities - press, publishing, and distribution [Daily Newspaper]	581-1
Publishing of books, periodicals and other publishing activities - press, publishing, and distribution [Non - Daily Newspaper]	581-2
Publishing of books, periodicals and other publishing activities - press, publishing, and distribution [Specialized - Newspaper]	581-3

License Information

The license application to display animals in zoos, bird parks, children's gardens, animal rental places, circuses or the like must be accompanied by a plan of the facility's location and another detailing its various buildings and facilities along with an operation plan that includes employment
Please refer to the standards of animal welfare practices
o Cruelty to animals
o Animal owner duties
o Conditions for dealing with animals
o Conditions for establishing animal facilities
o Animal transport
o The use of animals for scientific purposes
o Disposal of animals

Operational requirements after obtaining the Business license
1. Each commercial animal facility must appoint a veterinarian permanently, and he must be licensed by the competent authority to practice the veterinary profession, except for the temporary commercial or recreational facilities where the supervision of a veterinarian, a veterinary clinic, or a veterinary hospital is sufficient.
2. The competent authority issues a license for each animal observer in any commercial animal facility by the competent authority after the following conditions are met:
* Conducting a competency test in dealing with animals.
* Animal observers must submit scientific certificates that are duly documented and equivalent in the field of animal care.
* Animal observers are required to have duly documented experience certificates of no

less than (5) five years in the same field.
* A duly documented (2) two-year experience certificate for animal observers in the same field is sufficient.
A- The term of the license shall be according to the type and size of the facility, provided that it does not exceed one year;
3. The license granted to operate the animal facility shall be withdrawn if the license owner violates the Animal Welfare Law of the GCC countries or the regulations issued thereof, or if they violate the license terms issued by the competent authority.

Agriculture, animal production, and fishing

ISIC4	Business activity
032	Aquaculture

Description

Includes aquaculture (or aquafarming), i.e. the production process involving the culturing or farming (including harvesting) of aquatic organisms (fish, molluscs, crustaceans, plants, crocodiles, alligators and amphibians) using techniques designed to increase the production of the organisms in question beyond the natural capacity of the environment (for example regular stocking, feeding and protection from predators).
Culturing/farming refers to the rearing up to their juvenile and/or adult phase under captive conditions of the above organisms. In addition, aquaculture also encompasses individual, corporate or state ownership of the individual organisms throughout the rearing or culture stage, up to and including harvesting.

Mining and quarrying

ISIC4	Business activity
06	Extraction of crude petroleum and natural gas

Description

Includes the process of extracting petroleum from oil reservoirs in the earth, including primary recovery, which depends on the pressure of water and natural gas, secondary recovery, which involves injecting water and gas using electrical submersible pumps when natural pressure falls, and tertiary recovery, which relies on increasing the oil's mobility to force it to the surface.
Also included is the extraction of natural gas from gas reservoirs or as a byproduct of petroleum extraction.
This activity excludes:
- support activities for petroleum and gas extraction (see 0910).
- Refining of petroleum products (see 1920)

•Mobile slaughterhouse Operational Requirements Form
•Standards of animal welfare practices

Municipality Affairs (Post) (101-1)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type B)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Manufacturing

ISIC4	Business activity
101-2	Processing and preserving of meat - Factory

Description

This activity includes:
- operation of slaughterhouses engaged in killing, dressing or packing meat: beef, poultry, lamb, rabbit, mutton, camel, etc.
- production of fresh, chilled or frozen meat, in carcasses or in cuts or individual portions.
- production of dried, salted or smoked meat
- production of meat products: sausages, salami, puddings, saveloys, bolognas, pâtés

This activity also includes:
- production of hides and skins originating from slaughterhouses, including fellmongery
- processing of animal offal

This activity excludes:
- manufacture of prepared frozen meat and poultry dishes, see 107
- manufacture of soup containing meat, see 107
- wholesale trade of meat, see 463
- packaging of meat, see 8292

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Ministry of Health (Post) (101-2)

Approval Name	Description	Estimated Time
Health approval for Processing and preserving of meat	Health approval for Processing and preserving of meat	5 Days

Fee Details (if any)

150 BD

License Information

Please refer to the “Activity License Checklist – Ministry of Health“ document under the “other downloadable documents” section for the licensing requirements.

For faster processing, you may engage any of the licensed engineering offices listed under the “Service Providers Directory” to provide drawings/layout of the premises, which should then be attached to the application that you will submit online. To access the list of licensed engineering offices follow the below steps:
1- Click on “Public Service” on the main navigation bar
2- Click on “Service Providers Directory”
3- Click on “Click Here” button adjacent to “List of Engineering Offices for Ministry of Health related activities”

Required Documents

- Drawings/ layout of premises (approved by an engineering office).
- Requirement Checklist (Stamped by an engineering office)
- drawings/layouts of the premises

Other Documents

- Activity License Checklist - Ministry of Health
- Operational requirements for food production and packaging

Directorate Of Industrial Developments (Final Site Inspection) (101-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
Directorate Of Industrial Developments	Approval by Directorate of Industrial	Pre

	Developments(Pre)	
Municipality Affairs	Site Approval for manufacturing activities (Type B)	Post
Ministry of Health	Health approval for Processing and preserving of fruit and vegetables	Post
Supreme Council for Environment	Environmental Approval for Processing and preservation of fruits and vegetables - factory activity	Post
Directorate Of Industrial Developments	Notification Only	Final Site Inspection

Directorate Of Industrial Developments (Pre) (103-2)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Municipality Affairs (Post) (103-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type B)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Ministry of Health (Post) (103-2)

Approval Name	Description	Estimated Time
Health approval for Processing and preserving of fruit and vegetables	Health approval for Processing and preserving of fruit and vegetables	5 Days

Fee Details (if any)

150 BD

License Information

Please refer to the “Activity License Checklist – Ministry of Health“ document under the “other downloadable documents” section for the licensing requirements.

For faster processing, you may engage any of the licensed engineering offices listed under the “Service Providers Directory” to provide drawings/layout of the premises, which should then be attached to the application that you will submit online. To access the list of licensed engineering offices follow the below steps:
1- Click on “Public Service” on the main navigation bar
2- Click on “Service Providers Directory”
3- Click on “Click Here” button adjacent to “List of Engineering Offices for Ministry of Health related activities”

Required Documents

- Drawings/ layout of premises (approved by an engineering office).
- Requirement Checklist (Stamped by an engineering office)
- drawings/layouts of the premises

Other Documents

- Activity License Checklist - Ministry of Health
- Operational requirements for food production and packaging

Supreme Council for Environment (Post) (103-2)

Approval Name	Description	Estimated Time
Environmental Approval for Processing and preservation of fruits and vegetables - factory activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

License Information

To check the requirements for this approval, kindly download the detailed requirements sheet from the other downloadable documents section, which includes the following requirements:

- Building layout engineering and equipment requirements
- Workplace requirements
- Storage requirements
- Material management requirements
- Waste Management Requirements
- Documents and reporting requirements

• General requirements

Other Documents

•Annex to the Minister of Housing, Municipalities and Environment order regarding the project's environmental assessment

Directorate Of Industrial Developments (Final Site Inspection) (103-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
104-1	Manufacture of vegetable, animal, and fish oils and fats - Workshop

Description

This activity includes the manufacture of crude and refined oils and fats from vegetable or animal materials, except rendering or refining of lard and other edible animal fats.
This activity includes:
- manufacture of crude vegetable oils: olive oil, soya-bean oil, palm oil, sunflower-seed oil, cotton-seed oil, rape, colza or mustard oil, linseed oil etc.
- manufacture of non-defatted flour or meal of oilseeds, oil nuts or oil kernels
- manufacture of refined vegetable oils: olive oil, soya-bean oil etc.
- processing of vegetable oils: blowing, boiling, dehydration, hydrogenation etc.
- manufacture of margarine
- manufacture of melanges and similar spreads
- manufacture of compound cooking fats

This activity also includes:
- manufacture of non-edible animal oils and fats
- extraction of fish and marine mammal oils
- production of cotton linters, oilcakes and other residual products of oil production.

This activity excludes:
- rendering and refining of lard and other edible animal fats, see 101
- wet corn milling, see 106
- production of essential oils, see 2029
- treatment of oil and fats by chemical processes, see 2029

Manufacturing

ISIC4	Business activity
105-1	Manufacture of dairy products - Workshop

Description

This activity includes:
- manufacture of fresh liquid milk, pasteurized, sterilized, homogenized and/or ultra heat treated
- manufacture of milk-based drinks
- manufacture of cream from fresh liquid milk, pasteurized, sterilized, homogenized
- manufacture of dried or concentrated milk whether or not sweetened
- manufacture of milk or cream in solid form
- manufacture of butter
- manufacture of yoghurt
- manufacture of cheese and curd
- manufacture of whey
- manufacture of casein or lactose
- manufacture of ice cream and other edible ice such as sorbet

This activity excludes:
- production of raw milk (cattle), see 0141
- production of raw milk (camels, etc.), see 014
- production of raw milk (sheep, goats, horses, asses, etc.), see 0144
- manufacture of non-dairy milk and cheese substitutes, see 1079
- activities of ice cream parlours, see 561

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtenstein er 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
Supreme Council for Environment	Environmental Approval for Dairy Products	Post

	Manufacture - Workshop activity	
Municipality Affairs	Site Approval for manufacturing activities (Type B)	Post
Ministry of Health	Health approval for Manufacture of dairy products	Post

Supreme Council for Environment (Post) (105-1)

Approval Name	Description	Estimated Time
Environmental Approval for Dairy Products Manufacture - Workshop activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

License Information

To check the requirements for this approval, kindly download the detailed requirements sheet from the other downloadable documents section, which includes the following requirements:

- Building layout engineering and equipment requirements
- Workplace requirements
- Storage requirements
- Material management requirements
- Waste Management Requirements

- Documents and reporting requirements
- General requirements

Other Documents

- Annex to the Minister of Housing, Municipalities and Environment order regarding the project's environmental assessment
- Law No. (2) of 2021 regarding the environmental standards of air as decided by the Chairman of the Supreme Council for Environment
- Law No. (3) of 2021 regarding the environmental standards of water as decided by the Chairman of the Supreme Council for the Environment
- Law No. (3) of 2021 regarding the environmental standards of water as decided by the Chairman of the Supreme Council for the Environment

media, refrigeration units and air conditioning units as decided by the Chairman of the Supreme Council for the Environment
•Order No. (2) of 2020 determining the categories of fees for licensing refrigeration media, refrigeration units and air conditioning units as decided by the Chairman of the Supreme Council for the Environment
•Requirements for business activities
•law No. (1) of 2020 regarding the management of refrigeration media, refrigeration units and air conditioning units as decided by the Chairman of the Supreme Council for the Environment
•law No. (2) of 2019 regarding the ban on the import of plastic waste of all kinds as decided by the Chairman of the Supreme Council for the Environment
•law No. (204) of 2018 regarding banning the export of some types of local fishes, shrimps and other aquatic organisms, and coordinating with the Agriculture and Marine Resources at the Ministry of Works, Municipalities and Urban Planning regarding the import and export of some species

Municipality Affairs (Post) (105-1)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type B)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Ministry of Health (Post) (105-1)

Approval Name	Description	Estimated Time
Health approval for Manufacture of dairy products	Health approval for Manufacture of dairy products	5 Days

Fee Details (if any)

150 BD

License Information

Please refer to the “Activity License Checklist – Ministry of Health“ document under the “other downloadable documents” section for the licensing requirements.

For faster processing, you may engage any of the licensed engineering offices listed under the “Service Providers Directory” to provide drawings/layout of the premises, which should then be attached to the application that you will submit online. To access the list of licensed engineering offices follow the below steps:
1- Click on “Public Service” on the main navigation bar
2- Click on “Service Providers Directory”
3- Click on “Click Here” button adjacent to “List of Engineering Offices for Ministry of Health related activities”

Required Documents

- Drawings/ layout of premises (approved by an engineering office).
- Requirement Checklist (Stamped by an engineering office)
- drawings/layouts of the premises

Other Documents

- Activity License Checklist - Ministry of Health
- Operational requirements for food production and packaging

Manufacturing

ISIC4	Business activity
105-2	Manufacture of dairy products - Factory

Description

This activity includes:
- manufacture of fresh liquid milk, pasteurized, sterilized, homogenized and/or ultra heat treated
- manufacture of milk-based drinks
- manufacture of cream from fresh liquid milk, pasteurized, sterilized, homogenized
- manufacture of dried or concentrated milk whether or not sweetened
- manufacture of milk or cream in solid form

Directorate Of Industrial Developments (Final Site Inspection) (105-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Directorate Of Industrial Developments (Final Site Inspection) (106-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
107-1	Manufacture of other food products - Workshop

Description

This activity includes the production of a variety of food products not included in previous activities. This includes the production of sugar products, macaroni, noodles and similar products, prepared meals and dishes, coffee, tea and spices, as well as perishable and specialty food products.
This activity excludes:
- manufacture of glucose, glucose syrup, maltose, see 106
- preparation of meals and dishes for immediate consumption, see 5610

Municipality Affairs (Post) (108-1)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type B)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Manufacturing

ISIC4	Business activity
108-2	Manufacture of prepared animal feeds - Factory

Description

This activity includes:
- manufacture of prepared feeds for pets, including dogs, cats, birds, fish etc.
- manufacture of prepared feeds for farm animals, including animal feed concentrates and feed supplements
- preparation of unmixed (single) feeds for farm animals
- treatment of slaughter waste to produce animal feeds

This class excludes:
- production of fishmeal for animal feed, see 102
- production of oilseed cake, see 104
- activities resulting in by-products usable as animal feed without special treatment, e.g. oilseeds (see 104), grain milling residues (see 106) etc.

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtenstein er 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
Directorate Of Industrial Developments	Approval by Directorate of Industrial	Pre

	Developments(Pre)	
Supreme Council for Environment	Environmental Approval for Manufacture of prepared animal feed - factory activity	Post
Municipality Affairs	Site Approval for manufacturing activities (Type B)	Post
Directorate Of Industrial Developments	Notification Only	Final Site Inspection

Directorate Of Industrial Developments (Pre) (108-2)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (108-2)

Approval Name	Description	Estimated Time
Environmental Approval for Manufacture of prepared animal feed - factory activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (108-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

Directorate Of Industrial Developments (Final Site Inspection) (140-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation

Manufacturing

ISIC4	Business activity
15-1	Manufacture of leather and related products - Workshop

Description

This activity includes dressing and dyeing of fur and the transformation of hides into leather by tanning or curing and fabricating the leather into products for final consumption. It also includes the manufacture of similar products from other materials (imitation leathers or leather substitutes), such as rubber footwear, textile luggage etc. The products made from leather substitutes are included here, since they are made in ways similar to those in which leather products are made (e.g. luggage) and are often produced in the same unit. Products produced by this activity includes:

- chamois dressed, parchment dressed, patent or metallized leathers
- composition leather
- luggage, handbags and the like, of leather, composition leather or any other material, such as plastic sheeting, textile materials, vulcanized fibre or paperboard, where the same technology is used as for leather
- saddlery and harness
- non-metallic watch bands (e.g. fabric, leather, plastic)
- diverse articles of leather or composition leather: driving belts, packings etc.
- shoe-lace, of leather
- horse whips.

Manufacturing

ISIC4	Business activity
160	Manufacture of wood and of products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials

Description

This activity includes the manufacture of all types of wood products, such as lumber, plywood, veneers, wood containers, wood flooring, wood trusses, and prefabricated wood buildings. The production processes include sawing, planing, shaping, laminating, and assembling of wood products starting from logs that are cut into bolts, or lumber that may then be cut further, or shaped by lathes or other shaping tools. The lumber or other transformed wood shapes may also be subsequently planed or smoothed, and assembled into finished products, such as wood containers.This division does not include the manufacture of furniture (see 31), or the installation of wooden fittings and the like (see 433).

2011	Manufacture of basic chemicals

Description

This activity includes the manufacture of chemicals using basic processes, such as thermal cracking and distillation. The output of these processes are usually separate chemical elements or separate chemically defined compounds.
This activity includes:
- manufacture of liquefied or compressed inorganic industrial or medical gases
- manufacture of dyes and pigments from any source in basic form or as concentrate
- manufacture of chemical elements
- manufacture of inorganic acids except nitric acid
- manufacture of alkalis, lyes and other inorganic bases except ammonia
- manufacture of other inorganic compounds
- manufacture of basic organic chemicals:
- manufacture of distilled water
- manufacture of synthetic aromatic products
- roasting of iron pyrites
- manufacture of products of a kind used as fluorescent brightening agents or as luminophores
- enrichment of uranium and thorium ores and production of fuel elements for nuclear reactors

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtenstein er 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
General Directorate Of Criminal Investigation	Approval by General Directorate of Criminal	Pre

	Investigation	
Directorate Of Industrial Developments	Approval by Directorate of Industrial Developments(Pre)	Pre
Supreme Council for Environment	Environmental Approval for Manufacture of basic chemicals activity	Post
Municipality Affairs	Site Approval for manufacturing activities (Type C)	Post
Directorate Of Industrial Developments	Notification Only	Final Site Inspection

General Directorate Of Criminal Investigation (Pre) (2011)

Approval Name	Description	Estimated Time
Approval by General Directorate of Criminal Investigation	General Directorate of Criminal Investigation Approval for the Activity	7 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

- The applicant should not have a criminal record, unless they have been rehabilitated in criminal cases

Directorate Of Industrial Developments (Pre) (2011)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (2011)

Approval Name	Description	Estimated Time
Environmental Approval for Manufacture of basic chemicals activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

License Information

To check the requirements for this approval, kindly download the detailed requirements sheet from the other downloadable documents section, which includes the following requirements:

- Building layout engineering and equipment requirements
- Workplace requirements
- Storage requirements
- Material management requirements
- Waste Management Requirements

- Documents and reporting requirements
- General requirements

Other Documents

- Annex to the Minister of Housing, Municipalities and Environment order regarding the project's environmental assessment
- Law No. (2) of 2021 regarding the environmental standards of air as decided by the Chairman of the Supreme Council for Environment
- Law No. (3) of 2021 regarding the environmental standards of water as decided by the Chairman of the Supreme Council for the Environment
- Law No. (54) of 2014 regarding the approval of the unified law regarding substances that deplete the ozone layer for the GCC countries
- Law No. (7) of 2022 regarding the environment
- Ministerial Order No. (1) of 1998 regarding Project's Environmental Assessment
- Ministerial Order No. (10) of 2006 regarding the installation of devices for on-line monitoring of atmospheric air pollutants
- Ministerial Order No. (11) of 2019 regarding the issue of technical specification of plastic products
- Ministerial Order No. (3) of 2005 regarding environmental requirements and standards in workplaces, especially regarding workers' exposure to heat and noise, and the provision of tools and protective clothing such as gloves, glasses, face masks and earplugs, with a commitment to use them during work
- Ministerial Order No. (3) of 2006 regarding the management of hazardous waste

- Ministerial Order No. 4 of 2014 regarding the management of the environmental consulting offices operations in the Kingdom of Bahrain
- Order No. (2) of 2020 determining the categories of fees for licensing refrigeration media, refrigeration units and air conditioning units as decided by the Chairman of the Supreme Council for the Environment
- Requirements for business activities
- law No. (1) of 2020 regarding the management of refrigeration media, refrigeration units and air conditioning units as decided by the Chairman of the Supreme Council for the Environment

•law No. (2) of 2019 regarding the ban on the import of plastic waste of all kinds as decided by the Chairman of the Supreme Council for the Environment

Municipality Affairs (Post) (2011)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (2011)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Manufacturing

ISIC4	Business activity
2013-1	Manufacture of plastics and synthetic rubber in primary forms - Workshop

Description

This activity includes the manufacture of resins, plastics materials and non-vulcanizable thermoplastic elastomers, the mixing and blending of resins on a custom basis, as well as the manufacture of non-customized synthetic resins.
This activity includes:
- manufacture of plastics in primary forms:
· polymers, including those of ethylene, propylene, styrene, vinyl chloride, vinyl acetate and acrylics
· polyamides
· phenolic and epoxide resins and polyurethanes
· alkyd and polyester resins and polyethers
· silicones
· ion-exchangers based on polymers
- manufacture of synthetic rubber in primary forms:
· synthetic rubber
· factice
- manufacture of mixtures of synthetic rubber and natural rubber or rubber-like gums (e.g. balata)
- manufacture of cellulose and its chemical derivatives

Manufacturing

ISIC4	Business activity
2013-2	Manufacture of plastics and synthetic rubber in primary forms - Factory

Description

This activity includes the manufacture of resins, plastics materials and non-vulcanizable thermoplastic elastomers, the mixing and blending of resins on a custom basis, as well as the manufacture of non-customized synthetic resins.
This activity includes:
- manufacture of plastics in primary forms:
· polymers, including those of ethylene, propylene, styrene, vinyl chloride, vinyl acetate and acrylics
· polyamides
· phenolic and epoxide resins and polyurethanes
· alkyd and polyester resins and polyethers
· silicones
· ion-exchangers based on polymers
- manufacture of synthetic rubber in primary forms:
· synthetic rubber
· factice
- manufacture of mixtures of synthetic rubber and natural rubber or rubber-like gums (e.g. balata)
- manufacture of cellulose and its chemical derivatives

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtenstein er 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (2013-2)

Approval Name	Description	Estimated Time
Environmental Approval for Manufacture of plastics and synthetic rubber in their primary forms - factory activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

Municipality Affairs (Post) (2013-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (2013-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
2021	Manufacture of pesticides and other agrochemical products

Description

This activity includes:
- manufacture of insecticides, rodenticides, fungicides, herbicides
- manufacture of anti-sprouting products, plant growth regulators
- manufacture of disinfectants (for agricultural and other use)
- manufacture of other agrochemical products

This activity excludes:
- manufacture of fertilizers and nitrogen compounds, see 2012

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (2022-2)

Approval Name	Description	Estimated Time
Environmental Approval for Manufacture of paints, varnishes and similar coatings, printing inks and mastic pastes - factory	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

Municipality Affairs (Post) (2022-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (2022-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

Manufacturing

ISIC4	Business activity
2023-1	Manufacture of soap and detergents, cleaning and polishing preparations, perfumes and toilet preparations - Workshop

Description

This activity includes:
- manufacture of organic surface-active agents
- manufacture of soap
- manufacture of paper, wadding, felt etc. coated or covered with soap or detergent
- manufacture of crude glycerol
- manufacture of surface-active preparations:
· washing powders in solid or liquid form and detergents
· dish-washing preparations
· textile softeners
- manufacture of cleaning and polishing products:
· preparations for perfuming or deodorizing rooms
· artificial waxes and prepared waxes
· polishes and creams for leather
· polishes and creams for wood
· polishes for coachwork, glass and metal
· scouring pastes and powders, including paper, wadding etc. coated or covered with these
- manufacture of perfumes and toilet preparations:
· perfumes and toilet water
· beauty and make-up preparations
· sunburn prevention and suntan preparations
· manicure and pedicure preparations
· shampoos, hair lacquers, waving and straightening preparations
· dentifrices and preparations for oral hygiene, including denture fixative preparations
· shaving preparations, including pre-shave and aftershave preparations
· deodorants and bath salts
· depilatories

Manufacturing

ISIC4	Business activity
2029-1	Manufacture of other chemical products - Workshop

Description

This activity includes:
- manufacture of propellant powders
- manufacture of gelatine and its derivatives, glues and prepared adhesives, including rubber-based glues and adhesives
- manufacture of extracts of natural aromatic products
- manufacture of resinoids
- manufacture of aromatic distilled waters
- manufacture of mixtures of odoriferous products for the manufacture of perfumes or food
- manufacture of photographic plates, films, sensitized paper and other sensitized unexposed materials
- manufacture of chemical preparations for photographic uses
- manufacture of various chemical products:
· peptones, peptone derivatives, other protein substances and their derivatives n.e.c.
· essential oils
· chemically modified oils and fats
· materials used in the finishing of textiles and leather
· powders and pastes used in soldering, brazing or welding
· substances used to pickle metal
· prepared additives for cements
· activated carbon, lubricating oil additives, prepared rubber accelerators, catalysts and other chemical products for industrial use
· anti-knock preparations, antifreeze preparations
· composite diagnostic or laboratory reagents
- manufacture of writing and drawing ink
- manufacture of matches

This activity excludes:
- manufacture of chemically defined products in bulk
- manufacture of distilled water
- manufacture of synthetic aromatic products
- manufacture of printing ink
- manufacture of perfumes and toilet preparations

- manufacture of asphalt-based adhesives

Manufacturing

ISIC4	Business activity
2029-2	Manufacture of other chemical products - Factory

Description

This activity includes:
- manufacture of propellant powders
- manufacture of gelatine and its derivatives, glues and prepared adhesives, including rubber-based glues and adhesives
- manufacture of extracts of natural aromatic products
- manufacture of resinoids
- manufacture of aromatic distilled waters
- manufacture of mixtures of odoriferous products for the manufacture of perfumes or food
- manufacture of photographic plates, films, sensitized paper and other sensitized unexposed materials
- manufacture of chemical preparations for photographic uses
- manufacture of various chemical products:
· peptones, peptone derivatives, other protein substances and their derivatives n.e.c.
· essential oils
· chemically modified oils and fats
· materials used in the finishing of textiles and leather
· powders and pastes used in soldering, brazing or welding
· substances used to pickle metal
· prepared additives for cements
· activated carbon, lubricating oil additives, prepared rubber accelerators, catalysts and other chemical products for industrial use
· anti-knock preparations, antifreeze preparations
· composite diagnostic or laboratory reagents
- manufacture of writing and drawing ink
- manufacture of matches

This activity excludes:
- manufacture of chemically defined products in bulk
- manufacture of distilled water
- manufacture of synthetic aromatic products
- manufacture of printing ink
- manufacture of perfumes and toilet preparations

- manufacture of asphalt-based adhesives

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%	GCC 100%
American 100%	Singaporean 100%

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009

Municipality Affairs (Post) (2029-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (2029-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Manufacturing

ISIC4	Business activity
21-1	Manufacture of basic pharmaceutical products and pharmaceutical preparations - Workshop

Description

This activity includes the manufacture of basic pharmaceutical products and pharmaceutical preparations. This includes also the manufacture of medicinal chemical and botanical products.
Products manufactured include:
- manufacture of medicinal active substances to be used for their pharmacological properties in the manufacture of medicaments: antibiotics, basic vitamins, salicylic and O-acetylsalicylic acids etc.
- processing of blood
- manufacture of medicaments: antisera and other blood fractions; vaccines; diverse medicaments, including homeopathic preparations
- manufacture of chemical contraceptive products for external use and hormonal contraceptive medicaments
- manufacture of medical diagnostic preparations, including pregnancy tests
- manufacture of radioactive in-vivo diagnostic substances
- manufacture of biotech pharmaceuticals
- manufacture of chemically pure sugars
- processing of glands and manufacture of extracts of glands etc.
- manufacture of medical impregnated wadding, gauze, bandages, dressings etc.
- preparation of botanical products (grinding, grading, milling) for pharmaceutical use

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

NHRA-Pharmatical Products Regulation Office (Final Site Inspection) (21-1)

Approval Name	Description	Estimated Time
Manufacture of basic pharmaceutical products and pharmaceutical preparations - Pre Approval	Manufacture of basic pharmaceutical products and pharmaceutical preparations - Pre Approval	5 Days

Fee Details (if any)

Application Fees: 50BD
-Initial Approval for local Pharmaceutical Manufacturing sites: 5000BD.
-Manufacture Site License for Medicine: 5000 per year.
-Manufacture Site License for Pharmaceutical Products: 3000 per year.

License Information

• Filling the Initial Form
• Pay the application fees
• Inspection visit
Requirements
1- Separated from residence building.
2- Availability of adequate parking.
3- The pharmacy has a separated entrance.
4- The pharmacy has a Adequate Area.

•The manufacturing site should be in an area, away from the sources of pollution, vapors, gases, inflammable chemicals and residential area.

•Comply with the manufacturing conditions adopted by the World Health Organization (WHO) as well as other requirements adopted by the NHRA and other concerned official authorities

•The license is subject to Decree No (18) of 1997 with Respect to the Practice of Pharmacists and Pharmaceutical Centers and the amendments made to this law under Decree Law (20) of 2015, and the Resolution (63) for the Year 2019, to Issue the Regulation of the Requirements and Procedures for the Practice of Pharmacy Professions, Licensing of Pharmaceutical Centers, Medicines and Pharmaceutical Products Factories, and Pharmaceutical Facilities.
• You may visit NHRA's website for the laws applicable to these licenses:http://www.nhra.bh/SitePages/View.aspx?PageId=77

Required Documents

•CPR/ ID copy , passport copy (owner and Partner/s)
•Initial Application Form available on NHRA website
•Lease agreement/ownership (contract)
•Manufacturing site layout/design

Other Documents

Manufacturing

ISIC4	Business activity
21-2	Manufacture of basic pharmaceutical products and pharmaceutical preparations - Factory

Description

This activity includes the manufacture of basic pharmaceutical products and pharmaceutical preparations. This includes also the manufacture of medicinal chemical and botanical products.
Products manufactured include:
- manufacture of medicinal active substances to be used for their pharmacological properties in the manufacture of medicaments: antibiotics, basic vitamins, salicylic and O-acetylsalicylic acids etc.
- processing of blood
- manufacture of medicaments: antisera and other blood fractions; vaccines; diverse medicaments, including homeopathic preparations
- manufacture of chemical contraceptive products for external use and hormonal contraceptive medicaments
- manufacture of medical diagnostic preparations, including pregnancy tests
- manufacture of radioactive in-vivo diagnostic substances
- manufacture of biotech pharmaceuticals
- manufacture of chemically pure sugars
- processing of glands and manufacture of extracts of glands etc.
- manufacture of medical impregnated wadding, gauze, bandages, dressings etc.
- preparation of botanical products (grinding, grading, milling) for pharmaceutical use

Directorate Of Industrial Developments (Pre) (21-2)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Directorate Of Industrial Developments (Final Site Inspection) (21-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (221-2)

Approval Name	Description	Estimated Time
Environmental Approval for Rubber Products Manufacture - Factory activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

License Information

To check the requirements for this approval, kindly download the detailed requirements sheet from the other downloadable documents section, which includes the following requirements:

- Building layout engineering and equipment requirements
- Workplace requirements
- Storage requirements
- Material management requirements
- Waste Management Requirements

- Documents and reporting requirements
- General requirements

Other Documents

Municipality Affairs (Post) (221-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (221-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
222-1	Manufacture of plastics products - Workshop

Description

This activity includes the processing of new or spent (i.e. recycled) plastics resins into intermediate or final products, using such processes as compression molding, extrusion molding, injection molding, blow molding and casting. For most of these, the production process is such that a wide variety of products can be made, including:
- manufacture of semi-manufactures of plastic products:
· plastic plates, sheets, blocks, film, foil, strip etc. (whether self-adhesive or not)
- manufacture of finished plastic products:
· plastic tubes, pipes and hoses; hose and pipe fittings
- manufacture of plastic articles for the packing of goods:
· plastic bags, sacks, containers, boxes, cases, carboys, bottles etc.
- manufacture of builders` plastics ware:
· plastic doors, windows, frames, shutters, blinds, skirting boards
· tanks, reservoirs
· plastic floor, wall or ceiling coverings in rolls or in the form of tiles etc.
· plastic sanitary ware, such as:
· plastic baths, shower baths, washbasins, lavatory pans, flushing cisterns etc.
- manufacture of plastic tableware, kitchenware and toilet articles
- cellophane film or sheet
- manufacture of resilient floor coverings, such as vinyl, linoleum etc.
- manufacture of artificial stone (e.g. cultured marble)
- manufacture of plastic signs (non-electrical)
- manufacture of diverse plastic products:
· plastic headgear, insulating fittings, parts of lighting fittings, office or school supplies, articles of apparel (if only sealed together, not sewn), fittings for furniture, statuettes, transmission and conveyer belts, self-adhesive tapes of plastic, plastic wall paper, plastic shoe lasts, plastic cigar and cigarette holders, combs, plastics hair curlers, plastics novelties, etc.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used

Manufacturing

ISIC4	Business activity
231-1	Manufacture of glass, fiberglass and their products - Workshop

Description

This activity includes the manufacture of glass in all forms, made by any process and the manufacture of articles of glass.
This includes:
- manufacture of flat glass, including wired, coloured or tinted flat glass
- manufacture of toughened or laminated flat glass
- manufacture of glass in rods or tubes
- manufacture of glass paving blocks
- manufacture of glass mirrors
- manufacture of multiple-walled insulating units of glass
- manufacture of bottles and other containers of glass or crystal
- manufacture of drinking glasses and other domestic glass or crystal articles
- manufacture of glass fibres, including glass wool and non-woven products thereof
- manufacture of laboratory, hygienic or pharmaceutical glassware
- manufacture of clock or watch glasses, optical glass and optical elements not optically worked
- manufacture of glassware used in imitation jewellery
- manufacture of glass insulators and glass insulating fittings
- manufacture of glass envelopes for lamps
- manufacture of glass figurines
- manufacture of fiberglass products

Manufacturing

ISIC4	Business activity
231-2	Manufacture of glass, fiberglass and their products - Factory

Description

This activity includes the manufacture of glass in all forms, made by any process and the manufacture of articles of glass.
This includes:
- manufacture of flat glass, including wired, coloured or tinted flat glass
- manufacture of toughened or laminated flat glass
- manufacture of glass in rods or tubes
- manufacture of glass paving blocks
- manufacture of glass mirrors
- manufacture of multiple-walled insulating units of glass
- manufacture of bottles and other containers of glass or crystal
- manufacture of drinking glasses and other domestic glass or crystal articles
- manufacture of glass fibres, including glass wool and non-woven products thereof
- manufacture of laboratory, hygienic or pharmaceutical glassware
- manufacture of clock or watch glasses, optical glass and optical elements not optically worked
- manufacture of glassware used in imitation jewellery
- manufacture of glass insulators and glass insulating fittings
- manufacture of glass envelopes for lamps
- manufacture of glass figurines
- manufacture of fiberglass products

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtenstein er 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
Directorate Of Industrial Developments	Approval by Directorate of Industrial	Pre

	Developments(Pre)	
Supreme Council for Environment	Environmental Approval for Manufacture of glass and fiberglassand its products -Factory activity	Post

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (231-2)

Approval Name	Description	Estimated Time
Environmental Approval for Manufacture of glass and fiberglassand its products -Factory activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

Municipality Affairs (Post) (231-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (231-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Manufacturing

ISIC4	Business activity
239-1	Manufacture of non-metallic mineral products - Workshop

Description

This activity includes the manufacture of intermediate and final products from mined or quarried non-metallic minerals, such as sand, gravel, stone or clay.
This activity includes:
- Manufacture of refractory products: Refractory mortars, concretes etc; refractory ceramic goods; heat-insulating ceramic goods of siliceous fossil meals; refractory bricks, blocks and tiles etc; retorts, crucibles, muffles, nozzles, tubes, pipes etc; refractory articles containing magnesite, dolomite or chromite.
- Manufacture of clay building materials: non-refractory ceramic hearth or wall tiles, mosaic cubes etc; manufacture of non-refractory ceramic flags and paving; structural non-refractory clay building materials such as ceramic bricks, roofing tiles, chimney pots, pipes, conduits etc; flooring blocks in baked clay; ceramic sanitary fixtures
- Manufacture of cement, lime and plaster: clinkers and hydraulic cements, including Portland, aluminous cement, slag cement and superphosphate cements; quicklime, slaked lime and hydraulic lime; manufacture of plasters of calcined gypsum or calcined sulphate; manufacture of calcined dolomite
- Manufacture of articles of concrete, cement and plaster: precast concrete, cement or artificial stone articles for use in construction; prefabricated structural components for buildings or civil engineering of cement, concrete or artificial stone; plaster articles for use in construction; powdered mortars; ready-mix and dry-mix concrete and mortarsThis activity also includes:
- cutting, shaping and finishing of stone for use in construction, in cemeteries, on roads, as roofing etc.
- manufacture of stone furniture

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
241	Manufacture of basic iron and steel

Description

This activity includes operations of conversion by reduction of iron ore in blast furnaces and oxygen converters or of ferrous waste and scrap in electric arc furnaces or by direct reduction of iron ore without fusion to obtain crude steel which is smelted and refined in a ladle furnace and then poured and solidified in a continuous caster in order to produce semi-finished flat or long products, which are used, after reheating, in rolling, drawing and extruding operations to manufacture finished products such as plate, sheet, strip, bars, rods, wire, tubes, pipes and hollow profiles.
This activity includes:
- operation of blast furnaces, steel converters, rolling and finishing mills
- production of pig iron and spiegeleisen in pigs, blocks or other primary forms
- production of ferro-alloys
- production of ferrous products by direct reduction of iron and other spongy ferrous products
- production of iron of exceptional purity by electrolysis or other chemical processes
- production of granular iron and iron powder
- production of steel in ingots or other primary forms
- remelting of scrap ingots of iron or steel
- production of semi-finished products of steel
- manufacture of hot-rolled and cold-rolled flat-rolled products of steel
- manufacture of hot-rolled bars and rods of steel
- manufacture of hot-rolled open sections of steel
- manufacture of steel bars and solid sections of steel by cold drawing, grinding or turning
- manufacture of open sections by progressive cold forming on a roll mill or folding on a press of flat-rolled products of steel
- manufacture of wire of steel by cold drawing or stretching
- manufacture of sheet piling of steel and welded open sections of steel
- manufacture of railway track materials (unassembled rails) of steel
- manufacture of seamless tubes, pipes and hollow profiles of steel, by hot rolling, hot extrusion or hot drawing, or by cold drawing or cold rolling
- manufacture of welded tubes and pipes of steel, by cold or hot forming and welding, delivered as welded or further processed by cold drawing or cold rolling or manufactured by hot forming, welding and reducing

- manufacture of tube fittings of steel

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%	GCC 100%
American 100%	Singaporean 100%
Icelander 100%	Liechtenstein er 100%
Norwegian 100%	Swiss 100%

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
Directorate Of Industrial Developments	Approval by Directorate of Industrial Developments(Pre)	Pre
Municipality Affairs	Site Approval for manufacturing activities (Type C)	Post
Supreme Council for Environment	Environmental Approval for Making base iron and steel activity	Post
Directorate Of Industrial Developments	Notification Only	Final Site Inspection

Directorate Of Industrial Developments (Pre) (241)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Municipality Affairs (Post) (241)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Supreme Council for Environment (Post) (241)

Approval Name	Description	Estimated Time
Environmental Approval for Making base iron and steel activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

License Information

To check the requirements for this approval, kindly download the detailed requirements sheet from the other downloadable documents section, which includes the following requirements:

- Building layout engineering and equipment requirements
- Workplace requirements
- Storage requirements
- Material management requirements
- Waste Management Requirements

Manufacturing

ISIC4	Business activity
242-1	Manufacture of basic precious and other non-ferrous metals - Workshop

Description

This activity includes:
- production of basic precious metals: production and refining of unwrought or wrought precious metals: gold, silver, platinum etc. from ore and scrap
- production of precious metal alloys
- production of precious metal semi-products
- production of silver rolled onto base metals
- production of gold rolled onto base metals or silver
- production of platinum and platinum group metals rolled onto gold, silver or base metals
- production of aluminium, aluminium alloys, and semi-manufacturing of aluminium
- production of lead, zinc and tin and semi-manufacturing of lead, zinc and tin
- production of copper from ores or from electrolytic refining of copper waste and scrap
- production of copper alloys, manufacture of fuse wire or strip, and semi-manufacturing of copper
- production of chrome, manganese, nickel etc., production of alloys of chrome, manganese, nickel etc., and semi-manufacturing of chrome, manganese, nickel etc.
- production of mattes of nickel
- production of uranium metal from pitchblende or other ores
- smelting and refining of uranium
- manufacture of wire of these metals by drawing
- production of aluminium oxide (alumina)
- production of aluminium wrapping foil
- manufacture of aluminium (tin) foil laminates made from aluminum (tin) foil as primary component
- manufacture of precious metal foil laminates

Directorate Of Industrial Developments (Final Site Inspection) (242-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
243-1	Casting of metals - Workshop

Description

This activity includes the manufacture of semi-finished products and various castings by a casting process including the casting of iron and steel and casting of non-ferrous metals.
This activity includes:
- casting of semi-finished iron products
- casting of grey iron castings
- casting of spheroidal graphite iron castings
- casting of malleable cast-iron products
- casting of semi-finished steel products
- casting of steel castings
- manufacture of tubes, pipes and hollow profiles and of tube or pipe fittings of cast-iron
- manufacture of seamless tubes and pipes of steel
- manufacture of tube or pipe fittings of cast-steel
- casting of semi-finished products of aluminium, magnesium, titanium, zinc etc.
- casting of light metal castings
- casting of heavy metal castings
- casting of precious metal castings
- die-casting of non-ferrous metal castings

Municipality Affairs (Post) (243-1)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Manufacturing

ISIC4	Business activity
243-2	Casting of metals - Factory

Description

This activity includes the manufacture of semi-finished products and various castings by a casting process including the casting of iron and steel and casting of non-ferrous metals.
This activity includes:
- casting of semi-finished iron products
- casting of grey iron castings
- casting of spheroidal graphite iron castings
- casting of malleable cast-iron products
- casting of semi-finished steel products
- casting of steel castings
- manufacture of tubes, pipes and hollow profiles and of tube or pipe fittings of cast-iron
- manufacture of seamless tubes and pipes of steel
- manufacture of tube or pipe fittings of cast-steel
- casting of semi-finished products of aluminium, magnesium, titanium, zinc etc.
- casting of light metal castings
- casting of heavy metal castings
- casting of precious metal castings
- die-casting of non-ferrous metal castings

Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Directorate Of Industrial Developments (Final Site Inspection) (243-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

units and air conditioning units as decided by the Chairman of the Supreme Council for the Environment

Municipality Affairs (Post) (2512-1)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Manufacturing

ISIC4	Business activity
2512-2	Manufacture of tanks, reservoirs and containers of metal - Factory

Description

This activity includes:
- manufacture of reservoirs, tanks and similar containers of metal, of types normally installed as fixtures for storage or manufacturing use
- manufacture of metal containers for compressed or liquefied gas
- manufacture of central heating boilers and radiators

Business Requirements

✔ Age

18 and above

✔ Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtensteiner 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
Directorate Of Industrial Developments	Approval by Directorate of Industrial Developments(Pre)	Pre
Supreme Council for Environment	Manufacture of metal tanks, tanks and vessels - Factory	Post
Municipality Affairs	Site Approval for manufacturing activities (Type C)	Post
Directorate Of Industrial Developments	Notification Only	Final Site Inspection

Directorate Of Industrial Developments (Pre) (2512-2)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Directorate Of Industrial Developments (Final Site Inspection) (2512-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
2599-1	Manufacture of other fabricated metal products - Workshop

Description

This activity includes the manufacture if cutlery, handt tools, and general hardware and other fabricated metal products, such as:
- manufacture of pails, cans, drums, buckets, boxes
- manufacture of tins and cans for food products, collapsible tubes and boxes
- manufacture of metallic closures
- manufacture of metal cable, plaited bands and similar articles
- manufacture of uninsulated metal cable or insulated cable not capable of being used as a conductor of electricity
- manufacture of articles made of wire: barbed wire, wire fencing, grill, netting, cloth etc.
- manufacture of nails and pins
- manufacture of rivets, washers and similar non-threaded products
- manufacture of screw machine products
- manufacture of bolts, screws, nuts and similar threaded products
- manufacture of springs (except watch springs):
· leaf springs, helical springs, torsion bar springs
· leaves for springs
- manufacture of chain, except power transmission chain
- manufacture of metal household articles:
· flatware: plates, saucers etc.
· hollowware: pots, kettles etc.
· dinnerware: bowls, platters etc.
· saucepans, frying pans and other non-electrical utensils for use at the table or in the kitchen
· small hand-operated kitchen appliances and accessories
· metal scouring pads
- manufacture of baths, sinks, washbasins and similar articles
- manufacture of metal goods for office use, except furniture
- manufacture of safes, strongboxes, armoured doors etc.
- manufacture of various metal articles:
· ship propellers and blades thereof
· anchors
· bells
· assembled railway track fixtures

· clasps, buckles, hooks
- manufacture of foil bags
- manufacture of permanent metallic magnets
- manufacture of metal vacuum jugs and bottles
- manufacture of metal signs (non-electrical)
- manufacture of metal badges and metal military insignia
- manufacture of metal hair curlers, metal umbrella handles and frames, combs

Manufacturing

ISIC4	Business activity
2599-2	Manufacture of other fabricated metal products - Factory

Description

This activity includes the manufacture of cutlery, handt tools, and general hardware and other fabricated metal products, such as:
- manufacture of pails, cans, drums, buckets
- manufacture of tins and cans for food products, collapsible tubes and boxes
- manufacture of metallic closures
- manufacture of metal cable, plaited bands and similar articles
- manufacture of uninsulated metal cable or insulated cable not capable of being used as a conductor of electricity
- manufacture of articles made of wire: barbed wire, wire fencing, grill, netting, cloth etc.
- manufacture of nails and pins
- manufacture of rivets, washers and similar non-threaded products
- manufacture of screw machine products
- manufacture of bolts, screws, nuts and similar threaded products
- manufacture of springs (except watch springs):
· leaf springs, helical springs, torsion bar springs
· leaves for springs
- manufacture of chain, except power transmission chain
- manufacture of metal household articles:
· flatware: plates, saucers etc.
· hollowware: pots, kettles etc.
· dinnerware: bowls, platters etc.
· saucepans, frying pans and other non-electrical utensils for use at the table or in the kitchen
· small hand-operated kitchen appliances and accessories
· metal scouring pads
- manufacture of baths, sinks, washbasins and similar articles
- manufacture of metal goods for office use, except furniture
- manufacture of safes, strongboxes, armoured doors etc.
- manufacture of various metal articles:
· ship propellers and blades thereof
· anchors
· bells
· assembled railway track fixtures

· clasps, buckles, hooks
- manufacture of foil bags
- manufacture of permanent metallic magnets
- manufacture of metal vacuum jugs and bottles
- manufacture of metal signs (non-electrical)
- manufacture of metal badges and metal military insignia
- manufacture of metal hair curlers, metal umbrella handles and frames, combs

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtenstein er 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
Directorate Of Industrial Developments	Approval by Directorate of Industrial Developments(Pre)	Pre
Municipality Affairs	Site Approval for manufacturing activities (Type C)	Post
Supreme Council for Environment	Environmental Approval for Manufacture of other formed metal products – factory activity	Post
Directorate Of Industrial Developments	Notification Only	Final Site Inspection

Directorate Of Industrial Developments (Pre) (2599-2)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Municipality Affairs (Post) (2599-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Supreme Council for Environment (Post) (2599-2)

Approval Name	Description	Estimated Time
Environmental Approval for Manufacture of other formed metal products – factory activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

License Information

To check the requirements for this approval, kindly download the detailed requirements sheet from the other downloadable documents section, which includes the following requirements:

- Building layout engineering and equipment requirements
- Workplace requirements
- Storage requirements
- Material management requirements
- Waste Management Requirements

• Documents and reporting requirements
• General requirements

Other Documents

•Annex to the Minister of Housing, Municipalities and Environment order regarding the project's environmental assessment

Manufacturing

ISIC4	Business activity
271	Manufacture of electric motors, generators, transformers and electricity distribution and control apparatus

Description

This activity includes the manufacture of power, distribution and specialty transformers; electric motors, generators and motor generator sets; switch-gear and switchboard apparatus; relays and industrial controls. The electrical equipment manufactured in this class is for distribution level voltages.

Examples include:

- manufacture of distribution transformers, electric
- manufacture of arc-welding transformers
- manufacture of fluorescent ballasts (i.e. transformers)
- manufacture of substation transformers for electric power distribution
- manufacture of transmission and distribution voltage regulators
- manufacture of electric motors (except internal combustion engine starting motors)
- manufacture of power generators (except battery charging alternators for internal combustion engines)
- manufacture of motor generator sets (except turbine generator set units)
- manufacture of prime mover generator sets
- rewinding of armatures on a factory basis
- manufacture of power circuit breakers
- manufacture of surge suppressors (for distribution level voltage)
- manufacture of control panels for electric power distribution
- manufacture of electrical relays
- manufacture of duct for electrical switchboard apparatus
- manufacture of electric fuses
- manufacture of power switching equipment
- manufacture of electric power switches (except push-button, snap, solenoid, tumbler)

Supreme Council for Environment	Environmental Approval for Manufacture of electric motors, generators, transformers and electricity distribution and control	Post
Directorate Of Industrial Developments	Notification Only	Final Site Inspection

Directorate Of Industrial Developments (Pre) (271)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Municipality Affairs (Post) (271)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Supreme Council for Environment (Post) (271)

Approval Name	Description	Estimated Time
Environmental Approval for Manufacture of electric motors, generators, transformers and electricity distribution and control	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

License Information

To check the requirements for this approval, kindly download the detailed requirements sheet from the other downloadable documents section, which includes the following requirements:

- Building layout engineering and equipment requirements
- Workplace requirements
- Storage requirements
- Material management requirements
- Waste Management Requirements

- Documents and reporting requirements
- General requirements

Other Documents

- Annex to the Minister of Housing, Municipalities and Environment order regarding the project's environmental assessment
- Law No. (2) of 2021 regarding the environmental standards of air as decided by the Chairman of the Supreme Council for Environment
- Law No. (3) of 2021 regarding the environmental standards of water as decided by the Chairman of the Supreme Council for the Environment
- Law No. (54) of 2014 regarding the approval of the unified law regarding substances that deplete the ozone layer for the GCC countries
- Law No. (7) of 2022 regarding the environment
- Ministerial Order No. (1) of 1998 regarding Project's Environmental Assessment
- Ministerial Order No. (10) of 2006 regarding the installation of devices for on-line monitoring of atmospheric air pollutants
- Ministerial Order No. (11) of 2019 regarding the issue of technical specification of plastic products
- Ministerial Order No. (3) of 2005 regarding environmental requirements and standards in workplaces, especially regarding workers' exposure to heat and noise, and the provision of tools and protective clothing such as gloves, glasses, face masks and earplugs, with a commitment to use them during work
- Ministerial Order No. (3) of 2006 regarding the management of hazardous waste
- Ministerial Order No. (4) of 2005 regarding the management of used oils
- Ministerial Order No. (4) of 2006 regarding the management of hazardous chemicals
- Ministerial Order No. (4) of 2021 regarding the fees of the licenses and services provided by the Supreme Council for Environment

- Ministerial Order No. (7) of 2002 regarding the control importation and use of prohibited and severely restricted chemicals, and not to import any chemical compound except after obtaining approvals of all concerned authorities, including the executive body of the Supreme Council for Environment
- Ministerial Order No. (7) of 2013 amending order No. (3) of 2006 regarding the management of hazardous waste
- Ministerial Order No. 4 of 2014 regarding the management of the environmental consulting offices operations in the Kingdom of Bahrain
- Order No. (2) of 2020 determining the categories of fees for licensing refrigeration media, refrigeration units and air conditioning units as decided by the Chairman of the Supreme Council for the Environment
- Requirements for business activities
- law No. (1) of 2020 regarding the management of refrigeration media, refrigeration units and air conditioning units as decided by the Chairman of the Supreme Council for the Environment

•law No. (2) of 2019 regarding the ban on the import of plastic waste of all kinds as decided by the Chairman of the Supreme Council for the Environment

Directorate Of Industrial Developments (Final Site Inspection) (271)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
272	Manufacture of batteries and accumulators

Description

This activity includes the manufacture of non-rechargeable and rechargeable batteries, such as:
- manufacture of primary cells and primary batteries
· cells containing manganese dioxide, mercuric dioxide, silver oxide etc.
- manufacture of electric accumulators, including parts thereof:
· separators, containers, covers
- manufacture of lead acid batteries
- manufacture of NiCad batteries
- manufacture of NiMH batteries
- manufacture of lithium batteries
- manufacture of dry cell batteries
- manufacture of wet cell batteries

Manufacturing

ISIC4	Business activity
2733	Manufacture of wiring devices

Description

This activity includes the manufacture of current-carrying and non current-carrying wiring devices for electrical circuits regardless of material, such as:
- manufacture of bus bars, electrical conductors (except switchgear-type)
- manufacture of GFCI (ground fault circuit interrupters)
- manufacture of lamp holders
- manufacture of lightning arrestors and coils
- manufacture of switches for electrical wiring (e.g. pressure, pushbutton, snap, tumbler switches)
- manufacture of electrical outlets and sockets
- manufacture of boxes for electrical wiring (e.g. junction, outlet, switch boxes)
- manufacture of electrical conduit and fitting
- manufacture of transmission pole and line hardware
- manufacture of plastic non current-carrying wiring devices including plastic junction boxes, face plates, and similar, plastic pole line fittings

Municipality Affairs (Post) (2733)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (2733)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
274	Manufacture of electric lighting equipment

Description

This activity includes the manufacture of electric light bulbs and tubes and parts and components thereof (except glass blanks for electric light bulbs), electric lighting fixtures and lighting fixture components (except current-carrying wiring devices), such as:
- manufacture of discharge, incandescent, fluorescent, ultra-violet, infra-red etc. lamps, fixtures and bulbs
- manufacture of ceiling lighting fixtures
- manufacture of chandeliers
- manufacture of table lamps (i.e. lighting fixture)
- manufacture of electric fireplace logs
- manufacture of flashlights
- manufacture of electric insect lamps
- manufacture of lanterns (e.g. carbide, electric, gas, gasoline, kerosene)
- manufacture of spotlight
- manufacture of street lighting fixtures (except traffic signals)
- manufacture of lighting equipment for transportation equipment (e.g. for motor vehicles, aircraft, boats)
- manufacture of non-electrical lighting equipment

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtenstein er 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type

Directorate Of Industrial Developments (Pre) (274)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
275	Manufacture of domestic appliances

Description

This activity includes the manufacture of small electric appliances and electric housewares, household-type fans, household-type vacuum cleaners, electric household-type floor care machines, household-type cooking appliances, household-type laundry equipment, household-type refrigerators, upright and chest freezers and other electrical and non-electrical household appliances, such as dishwashers, water heaters and garbage disposal units. It also includes the manufacture of appliances with electric, gas or other fuel sources.
such appliances include:

- manufacture of domestic electric appliances: refrigerators; freezers; dishwashers; washing and drying machines; vacuum cleaners; floor polishers; waste disposers; grinders, blenders, juice squeezers; tin openers; electric shavers, electric toothbrushes and other electric personal care device; knife sharpeners; ventilating or recycling hoods.

- manufacture of domestic electrothermic appliances: electric water heaters; electric blankets; electric dryers, combs, brushes, curlers; electric smoothing irons; space heaters and household-type fans, portable; electric ovens; microwave ovens; cookers, hotplates; toasters; coffee or tea makers; fry pans, roasters, grills, hoods; electric heating resistors etc.

- manufacture of domestic non-electric cooking and heating equipment: non-electric space heaters, cooking ranges, grates, stoves, water heaters, cooking appliances, plate warmers

ISIC4	Business activity
279	Manufacture of other electrical equipment

Description

This activity includes the manufacture of miscellaneous electrical equipment other than motors, generators and transformers, batteries and accumulators, wires and wiring devices, lighting equipment or domestic appliances, such as:
- manufacture of battery chargers, solid-state
- manufacture of door opening and closing devices, electrical
- manufacture of electric bells
- manufacture of ultrasonic cleaning machines (except laboratory and dental)
- manufacture of tanning beds
- manufacture of solid state inverters, rectifying apparatus, fuel cells, regulated and unregulated power supplies
- manufacture of uninterruptible power supplies (UPS)
- manufacture of surge suppressors (except for distribution level voltage)
- manufacture of appliance cords, extension cords, and other electrical cord sets with insulated wire and connectors
- manufacture of carbon and graphite electrodes, contacts, and other electrical carbon and graphite products
- manufacture of particle accelerators
- manufacture of electrical capacitors, resistors, condensers and similar components
- manufacture of electromagnets
- manufacture of sirens
- manufacture of electronic scoreboards
- manufacture of electrical signs
- manufacture of electrical signalling equipment such as traffic lights and pedestrian signalling equipment
- manufacture of electrical insulators (except glass or porcelain)
- manufacture of electrical welding and soldering equipment, including hand-held soldering irons

This activity excludes:
- manufacture of non-electrical signs, see class according to material (plastic signs 222, metal signs 2599)
- manufacture of porcelain electrical insulators, see 239
- manufacture of carbon and graphite fibers and products (except electrodes and

electrical applications), see 239
- manufacture of electronic component-type rectifiers, voltage regulating integrated circuits, power converting integrated circuits, electronic capacitors, electronic resistors and similar devices, see 26
- manufacture of transformers, motors, generators, switch-gear, relays and industrial controls, see 271
- manufacture of batteries, see 272
- manufacture of communication and energy wire, current-carrying and non current-carrying wiring devices, see 2733
- manufacture of lighting equipment, see 274
- manufacture of household-type appliances, see 275
- manufacture of non-electrical welding and soldering equipment, see 28
- manufacture of motor vehicle electrical equipment, such as generators, alternators, spark plugs, ignition wiring harnesses, power window and door systems, voltage regulators, see 293
- manufacture of mechanical and electromagnetically signalling, safety and traffic control equipment for railways, tramways, inland waterways, roads, parking facilities, airfields, see 302

Directorate Of Industrial Developments (Final Site Inspection) (279)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
28	Manufacture of machinery and equipment

Description

This activity includes the manufacture of machinery and equipment that act independently on materials either mechanically or thermally or perform operations on materials (such as handling, spraying, weighing or packing), including their mechanical components that produce and apply force, and any specially manufactured primary parts.
This includes the manufacture of fixed and mobile or hand-held devices, regardless of whether they are designed for industrial, building and civil engineering, agricultural or home use. The manufacture of special equipment for passenger or freight transport within demarcated premises also belongs within this activity.

This activity includes the manufacture of general-purpose machinery and special purpose machinery.

- Manufacture of general purpose machinery includes: Manufacture of engines and turbines, except aircraft, vehicle and cycle engines; Manufacture of fluid power equipment; Manufacture of other pumps, compressors, taps and valves; Manufacture of bearings, gears, gearing and driving element; Manufacture of ovens, furnaces and furnace burners; Manufacture of lifting and handling equipment; Manufacture of office machinery and equipment (except computers and peripheral equipment); Manufacture of power-driven hand tools

- Manufacture of special purpose machinery: Manufacture of agricultural and forestry machinery; Manufacture of metal-forming machinery and machine tools; Manufacture of machinery for metallurgy; Manufacture of machinery for mining, quarrying and construction; Manufacture of machinery for food, beverage and tobacco processing; Manufacture of machinery for textile, apparel and leather production

Municipality Affairs (Post) (292)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type B)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (292)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

Manufacturing

ISIC4	Business activity
293	Manufacture of parts and accessories for motor vehicles

Description

This Activity includes:
- manufacture of diverse parts and accessories for motor vehicles: brakes, gearboxes, axles, road wheels, suspension shock absorbers, radiators, silencers, exhaust pipes, catalytic converters, clutches, steering wheels, steering columns and steering boxes
- manufacture of parts and accessories of bodies for motor vehicles: safety belts, airbags, doors, bumpers
- manufacture of car seats
- manufacture of motor vehicle electrical equipment, such as generators, alternators, spark plugs, ignition wiring harnesses, power window and door systems, assembly of purchased gauges into instrument panels, voltage regulators, etc.

This activity excludes:
- manufacture of tyres, see 221
- manufacture of rubber hoses and belts and other rubber products, see 221
- manufacture of plastic hoses and belts and other plastic products, see 222
- manufacture of batteries for vehicles, see 272
- manufacture of lighting equipment for motor vehicles, see 274
- manufacture of pistons, piston rings and carburetors, see 28
- manufacture of pumps for motor vehicles and engines, see 28
- maintenance, repair and alteration of motor vehicles, see 452

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (293)

1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Manufacturing

ISIC4	Business activity
3012	Building of Pleasure and sporting boats

Description

This activity includes:
- manufacture of inflatable boats and rafts
- building of sailboats with or without auxiliary motor
- building of motor boats
- building of recreation-type hovercraft
- manufacture of personal watercraft
- manufacture of other pleasure and sporting boats:
. canoes, kayaks, rowing boats, skiffs

Business Requirements

Age

18 and above

Allowed for Nationalities

Bahraini 100%		GCC 100%	
American 100%		Singaporean 100%	
Icelander 100%		Liechtenstein er 100%	
Norwegian 100%		Swiss 100%	

Foreign Allowed up to 100%

Legal Type

It is allowed to register according to the legal forms mentioned below

Allowed for Individual Commercial Registration (ICR) : Yes

Allowed for Company Commercial Registration (CCR) : Yes

- Bahrain Shareholding Company (Public)
- With Limited Liability Company
- Branch of a Foreign Company
- Bahrain Shareholding Company (Closed)
- Partnership Company
- Simple Commandite Company
- Commandite By Shares Company
- Non Profit Company

Required Step of Licenses and Approvals

Ministry / Directorate	License / Approval Requirements	Approval Type
Directorate Of Industrial Developments	Approval by Directorate of Industrial Developments(Pre)	Pre
Supreme Council for Environment	Environmental Approval for Industrial activity	Post
Municipality Affairs	Site Approval for manufacturing activities (Type B)	Post
Directorate Of Industrial Developments	Notification Only	Final Site Inspection

Directorate Of Industrial Developments (Pre) (3012)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (3012)

Approval Name	Description	Estimated Time
Environmental Approval for Industrial activity	Environmental Approval for Industrial Activity	There is no License Information in this license. Days

Fee Details (if any)

30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies) 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast-track procedure (when it is required to submit an environmental impact assessment study for the project) + with the additional payment amount of “100 Bahraini Dinars when it is required to submit a proposal for the scope of study before submitting it or 500 Bahraini Dinars for a fast-track procedure when the proposed scope of the study is being submitted before study submitting stage”

License Information

To check the requirements for this approval, kindly download the detailed requirements sheet from the other downloadable documents section, which includes the following requirements:

- Building layout Engineering and Equipment Requirements
- Work-place Requirements
- Storage Requirements
- Material Management Requirements
- Waste Management Requirements
- Documents and Reporting Requirements
- General Requirements

Subject to the information provided in the (EA-2) electronic form, some projects may require preparation and submission of an Environmental Impact Assessment Study that must be prepared by an environmental consultancy office “accredited by the Supreme Council for Environment”; where the scope of the study shall be agreed upon in writing between the Council, the Investor, and the Consultant. Each consultant office shall determine its fees for preparing the study.

- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (3012)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Manufacturing

ISIC4	Business activity
302	Manufacture of railway locomotives and rolling stock

Description

This activity includes:
- manufacture of electric, diesel, steam and other rail locomotives
- manufacture of self-propelled railway or tramway coaches, vans and trucks, maintenance or service vehicles
- manufacture of railway or tramway rolling stock, not self-propelled: passenger coaches, goods vans, tank wagons, self-discharging vans and wagons, workshop vans, crane vans, tenders etc.
- manufacture of specialized parts of railway or tramway locomotives or of rolling stock: bogies, axles and wheels, brakes and parts of brakes; hooks and coupling devices, buffers and buffer parts; shock absorbers; wagon and locomotive frames; bodies; corridor connections etc.
- manufacture of mechanical and electromechanical signalling, safety and traffic control equipment for railways, tramways, inland waterways, roads, parking facilities, airfields etc.
- manufacture of mining locomotives and mining rail cars
- manufacture of railway car seats

This class excludes:
- manufacture of unassembled rails, see 241
- manufacture of assembled railway track fixtures, see 2599
- manufacture of electric motors, see 271
- manufacture of electrical signalling, safety or traffic-control equipment, see 279
- manufacture of engines and turbines, see 28

Municipality Affairs (Post) (3091)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type C)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The commercial registration for this activity can be registered on Industrial streets/ areas only

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (93) of the year 2023 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (3091)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
3092	Manufacture of bicycles and invalid carriages

Description

This activity includes:
- manufacture of non-motorized bicycles and other cycles, including (delivery) tricycles, tandems, children`s bicycles and tricycles
- manufacture of parts and accessories of bicycles
- manufacture of invalid carriages with or without motor
- manufacture of parts and accessories of invalid carriages
- manufacture of baby carriages

This activity excludes:
- manufacture of bicycles with auxiliary motor, see 3091
- manufacture of wheeled toys designed to be ridden, including plastic bicycles and tricycles, see 324

Directorate Of Industrial Developments (Final Site Inspection) (310-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Directorate Of Industrial Developments (Final Site Inspection) (321-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
322-1	Manufacture of musical instruments - Workshop

Description

This activity includes:
- manufacture of stringed instruments
- manufacture of keyboard stringed instruments, including automatic pianos
- manufacture of keyboard pipe organs, including harmoniums and similar keyboard instruments with free metal reeds
- manufacture of accordions and similar instruments, including mouth organs
- manufacture of wind instruments
- manufacture of percussion musical instruments
- manufacture of musical instruments, the sound of which is produced electronically
- manufacture of musical boxes, fairground organs, calliopes etc.
- manufacture of instrument parts and accessories:
. metronomes, tuning forks, pitch pipes, cards, discs and rolls for automatic mechanical instruments etc.
- This activity also includes manufacture of whistles, call horns and other mouth-blown sound signalling instruments

1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (324-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (32405-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation

Manufacturing

ISIC4	Business activity
325-1	Manufacture of medical and dental instruments and supplies - Workshop

Description

This activity includes the manufacture of laboratory apparatus, surgical and medical instruments, surgical appliances and supplies, dental equipment and supplies, orthodontic goods, dentures and orthodontic appliances. Included is the manufacture of medical, dental and similar furniture, where the additional specific functions determine the purpose of the product, such as dentist`s chairs with built-in hydraulic functions.

This includes:
- manufacture of surgical drapes and sterile string and tissue
- manufacture of dental fillings and cements (except denture adhesives), dental wax and other dental plaster preparations
- manufacture of bone reconstruction cements
- manufacture of dental laboratory furnaces
- manufacture of laboratory ultrasonic cleaning machinery
- manufacture of laboratory sterilizers
- manufacture of laboratory type distilling apparatus, laboratory centrifuges
- manufacture of medical, surgical, dental or veterinary furniture, such as: operating tables; examination tables; hospital beds with mechanical fittings; dentists` chairs
- manufacture of bone plates and screws, syringes, needles, catheters, cannulae, etc.
- manufacture of dental instruments (including dentists` chairs incorporating dental equipment)
- manufacture of artificial teeth, bridges, etc., made in dental labs
- manufacture of orthopedic and prosthetic devices
- manufacture of glass eyes
- manufacture of medical thermometers
- manufacture of ophthalmic goods, eyeglasses, sunglasses, lenses ground to prescription, contact lenses, safety goggles

Fee Details (if any)

Application fee: 50 BD
License fee: 5,000 BD

License Information

1. The specifications related to ISO 13485 must be adhered to when preparing the engineering drawings for the manufactory, taking into account the product to be manufactured (please see the attached document in the other documents section.)
2. Establishing a policy related to a user tracking system in the establishment, provided that it includes clarification and tracking of the manufacturing process of raw materials until the production of final products.
3. Providing safety data for all raw materials to be used (safety data can be obtained from the supplier in the country of origin.)
4. Establishing internal policies and procedures for all procedures including, but not limited to, manufacturing, warehousing, inspection and quality, distribution, etc.
Operational Requirements That Must Be Adhered to After Licensing:
1. Providing labels on products that show their location within the production stage.
2. Complying with the regulations of the National Health Regulatory Authority (NHRA) found in the "Other Documents" section.
3. Providing a record related to the destroyed materials and products.

Required Documents

- 50 bd application fees payment receipt
- A Material Safety Data Sheet (MSDS)
- Captures from the tracing system used in the facility
- Facility material used in the site (for example, ventilation, paint flooring, etc.).
- Manufacture internal policies and procedure
- Medical Devices Local Manufacturing facility application Form
- Product Identification Label
- Signed and stamped terms and conditions form.
- Site Engineering drawing showing the following areas (receiving, storage, production, labelling and packaging, quality check, dispatch).
- Storing facility CR, if external

License Information

The Requirements That Must Be Met to Obtain the Final Approval:
1. In the case of contracting with a storage company, the storage company must be licensed to practice the activity of “Medical Devices Storage” (ISIC code 521.)
2. Using building materials for medical use when manufacturing sterile products, and it is preferable to use them in all cases, including those involving non-sterile products.
3. In the case of manufacturing products that require special storage conditions, a secondary power source must be provided to ensure the continuity of energy availability.
4. Cooling methods must be provided if products that require this are manufactured.
5. Providing a security system to manage the entry and exit process.
6. Providing guidelines.
7. Providing labels on the factory sections that show the production stage.
8. Providing fire extinguishers.
9. Providing a sign displaying working hours at the main entrance.
Operational Requirements That Must Be Adhered to After Licensing:
1. Providing labels on products that show their location within the production stage.
2. Complying with the regulations of the National Health Regulatory Authority (NHRA) found in the "Other Documents" section.
3. Providing a record related to the destroyed materials and products.

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009

Directorate Of Industrial Developments (Pre) (32901-2)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Supreme Council for Environment (Post) (32901-2)

Approval Name	Description	Estimated Time
Environmental Approval for Manufacture of stationary, art and handcraft tools - Factory activity	This service aims to assess the environmental impact and licensing of development, industrial and production projects and activities, in accordance with the standards of protecting the environment and its natural resources	10 Days

Fee Details (if any)

- 30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies)
- 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast track procedure (when it is necessary to submit an environmental impact assessment study for the project), with an additional payment of 100 Bahraini Dinars when it is necessary to submit a proposal for the scope of the study before submitting it or 500 Bahraini Dinars for a fast track procedure when the proposed scope of the study is being submitted before the study

Municipality Affairs (Post) (32901-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type B)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (32901-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Directorate Of Industrial Developments (Final Site Inspection) (32907-2)

Approval Name	Description	Estimated Time
Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Other Documents

- Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
- Ministerial Resolution No. (11) of 2009 with respect to promulgating Implementing Regulation
- Operational requirements for the directorate of industrial developments activities

Manufacturing

ISIC4	Business activity
3311	Repair of fabricated metal products

Description

This activity includes the repair and maintenance of fabricated metal products.
This includes:
- repair of metal tanks, reservoirs and containers
- repair and maintenance for pipes and pipelines
- mobile welding repair
- repair of steel shipping drums
- repair and maintenance of steam or other vapour generators
- repair and maintenance of auxiliary plant for use with steam generators: condensers, economizers, superheaters, steam collectors and accumulators
- repair and maintenance of parts for marine or power boilers
- platework repair of central heating boilers and radiators

This class excludes:
- repair of central heating systems etc.
- repair of mechanical locking devices, safes etc.

License Information

An official letter addressed to the Electricity and Water Authority, with the following attachments :
• A copy of the company's registration certificate
• A comprehensive report on the company's facilities
• The organizational structure of the company and the functional competencies of the departments of the structure
• The financial solvency of the company with an attachment of the company's financial statements for the last 3 years
• Financial expertise to practice this type of commercial activity, and provide all evidence of successful financing experiences for similar projects.
• Technical expertise in the field of electric power generation projects, provided that the applicant for commercial activity has the necessary experience in conducting the necessary operational tests in electric power plants that operate with a thermal, nuclear, and hydropower system, gas turbine generators through the combined cycle system, diesel and renewable energy in the process of electricity production.
• Documents showing the company's ability to develop electricity generation projects (building - operation - ownership) or (building - operation - ownership - conversion) with mentioning the geographical area on which these projects were built.

The Electricity and Water Authority has the right to instruct the company applying for a license to provide it with any data or documents it deems necessary to issue its decision on the submitted application.

Required Documents

•A comprehensive report on the company's facilities The service provided by the company and the geographical area in which this service is located
•A copy of the company's registration certificate
•A technical and financial feasibility study for the project, including, for example, capital costs, sources and type of financing for the activity
•Report of previous experience in electric power generation
•The approved financial statements in case of multiple activities of the company
•The organizational structure of the company and the functional competencies of the departments of the structure

Water supply; sewerage, waste management and remediation activities

ISIC4	Business activity
36-1	Water collection, treatment and supply

Description

This activity includes water collection, treatment and distribution activities for domestic and industrial needs. Collection of water from various sources, as well as distribution by various means is included. The operation of irrigation canals is also included; however the provision of irrigation services through sprinklers, and similar agricultural support services, is not included.

This activity includes:
- collection of water from wells etc.
- collection of rain water
- purification of water for water supply purposes
- treatment of water for industrial and other purposes
- desalting of sea or ground water to produce water as the principal product of interest
- distribution of water through mains, by trucks or other means

If the drilling of artesian water wells shall be practiced, then the applicant must select the option Drilling of Artesian Water Wells

This activity excludes:
- operation of irrigation equipment for agricultural purposes, see 0161
- treatment of wastewater in order to prevent pollution, see 37

License Information

All environmental requirements below must be complied with. In case of violation, the Supreme Council for the Environment shall have the right to take all the legal measures stipulated in the Legislative Decree (21) of 1996 regarding the environment, and the ministerial decisions that it implements, including suspension of the project through coordination with concerned authorities:

• Adhering to Ministerial Decision No. (3) of 2005 on environmental requirements and standards in the workplace, especially with regard to workers' exposure to heat and noise, providing tools and protective clothing such as gloves and glasses with commitment to use them during work.
• Use the shop as an administrative office only and engage in activity at the work site
• Compliance with Ministerial Resolution No. (10) of 1999 and its amendments on environmental standards (air and water)
• Not to import or use any radioactive materials or devices issued for radiation only after the review of the Department of Evaluation and Environmental Control and the written approval of it
• Compliance with Ministerial Decision No. (3) of 2006 on hazardous waste management
• This activity allows the carrying out of cleaning activities of sewage networks only, and you must be contracted with one of the companies licensed to transfer environmentally waste from the cleaning operations of the approved sewage treatment sites licensed in the Kingdom, in accordance with Ministerial Resolution No. (3) of 2006 on hazardous waste management. Should you wish to engage in the transfer of hazardous waste, a license for the transport of hazardous wastes should be obtained from the Supreme Council for the Environment as stipulated in the above resolution.

You cannot carry out the transport of sewage waste by tankers from any site until this license is obtained.
• It is prohibited to engage in wastewater treatment or any other treatment. If so desired, the approval of the Supreme Council for the Environment shall be obtained.
• It is prohibited to import or use any material of a chemical nature without obtaining the approval of the Supreme Council for Environment
• Do not throw any residues into the soil and the marine environment and disposed of them in environmentally sound ways through coordination with the Department of Environmental Assessment and Control
• Do not discharge any liquid waste into the soil or the marine environment. Do not discharge any waste to the wastewater network until after obtaining permission from the concerned authorities.
• In case you desire to expand or do any additions you must refer to the Supreme Council for the Environment to take the necessary license.

Water supply; sewerage, waste management and remediation activities

ISIC4	Business activity
383-1	Materials recovery - Workshop

Description

This activity includes:
- processing of metal and non-metal waste and scrap and other articles into secondary raw materials, usually involving a mechanical or chemical transformation process
- recovery of materials from waste streams in the form of: separating and sorting recoverable materials from non-hazardous waste streams (i.e. garbage); separating and sorting of commingled recoverable materials, such as paper, plastics, used beverage cans and metals, into distinct categories

Examples of the mechanical or chemical transformation processes that are undertaken are:
- mechanical crushing of metal waste such as used cars, washing machines, bikes etc. with subsequent sorting and separation
- dismantling of automobiles, computers, televisions and other equipment for materials recovery
- mechanical reduction of large iron pieces such as railway wagons
- shredding of metal waste, end-of-life vehicles etc.
- other methods of mechanical treatment as cutting, pressing to reduce the volume
- reclaiming metals out of photographic waste, e.g. fixer solution or photographic films and paper
- reclaiming of rubber such as used tires to produce secondary raw material
- sorting and pelleting of plastics to produce secondary raw material for tubes, flower pots, pallets and the like
- processing (cleaning, melting, grinding) of plastic or rubber waste to granulates
- crushing, cleaning and sorting of glass
- crushing, cleaning and sorting of other waste such as demolition waste to obtain secondary raw material
- processing of used cooking oils and fats into secondary raw materials
- processing of other food, beverage and tobacco waste and residual substances into secondary raw materials

Water supply; sewerage, waste management and remediation activities

ISIC4	Business activity
383-2	Materials recovery - Factory

Description

This activity includes:
- processing of metal and non-metal waste and scrap and other articles into secondary raw materials, usually involving a mechanical or chemical transformation process
- recovery of materials from waste streams in the form of: separating and sorting recoverable materials from non-hazardous waste streams (i.e. garbage); separating and sorting of commingled recoverable materials, such as paper, plastics, used beverage cans and metals, into distinct categories

Examples of the mechanical or chemical transformation processes that are undertaken are:
- mechanical crushing of metal waste such as used cars, washing machines, bikes etc. with subsequent sorting and separation
- dismantling of automobiles, computers, televisions and other equipment for materials recovery
- mechanical reduction of large iron pieces such as railway wagons
- shredding of metal waste, end-of-life vehicles etc.
- other methods of mechanical treatment as cutting, pressing to reduce the volume
- reclaiming metals out of photographic waste, e.g. fixer solution or photographic films and paper
- reclaiming of rubber such as used tires to produce secondary raw material
- sorting and pelleting of plastics to produce secondary raw material for tubes, flower pots, pallets and the like
- processing (cleaning, melting, grinding) of plastic or rubber waste to granulates
- crushing, cleaning and sorting of glass
- crushing, cleaning and sorting of other waste such as demolition waste to obtain secondary raw material
- processing of used cooking oils and fats into secondary raw materials
- processing of other food, beverage and tobacco waste and residual substances into secondary raw materials

Directorate Of Industrial Developments (Pre) (383-2)

Approval Name	Description	Estimated Time
Approval by Directorate of Industrial Developments(Pre)	This is a preliminary approval given by the Directorate of Industrial Development to ensure that the applicant has selected the appropriate activity based on the information provided	5 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

Applicants would have to provide through the system the following information:

General Information:

- Total Amount Invested in the Project (This should include value of machinery and fixed assets)
- Estimated number of workforce (Bahraini and Non-Bahraini)
- Expected utility consumption of electricity, water and natural gas
- Total area of the project

Activity Information:

- Product Information:

1) The products to be manufactured by choosing the appropriate HS codes (HS code list can be downloaded from the application if needed).
2) Product name.
3) Expected production date (The expected date on which the factory will start producing the product).

4) The maximum installed capacity and the expected production capacity per year based on the fixed HS code's unit of measure.

• Main raw materials: The main raw materials to be used in production and its source

• Main Machinery and Equipment: The main machinery and equipment to be used in production and its information.

• Manufacturing process: Brief on the manufacturing process explaining how materials are transformed from one state to another until reaching the final product, mentioning the types of materials used, the operations performed, and the machinery/equipment used in each step (if any) for each product.

Required Documents

•Photos of machinery/ equipment to be used
•Photos of products to be manufactured

Other Documents

•Law No. (81) of 2006 with respect to approving The Common Industrial Law of the GCC
•Ministerial Resolution No. (11) of 2009
•Operational requirements for the directorate of industrial developments activities

Municipality Affairs (Post) (383-2)

Approval Name	Description	Estimated Time
Site Approval for manufacturing activities (Type B)	Municipality Approval for the Commercial Registration address or the site in which the Activity will be practiced	3 Days

Fee Details (if any)

10 BD

License Information

General Conditions:
1. Size of shop/premises must be sufficient for the activity
2. Businesses may not carry out the activity outside the boundaries of the shop/ premises
3. It is prohibited to display or store any items or equipment outside the shop / premises boundary without prior approval from the Municipality. In the event of non-compliance, the Ministry of Municipality Affairs has the right to take necessary action.
4. Maintain cleanliness of the site
5. Comply with the parking space regulations as per the Construction Regulatory Requirements

Activity Specific Conditions:
1. The Commercial Registration for this activity can only be registered in service and industrial streets/areas

Note: Uploading pictures of the site/shop may expedite the process of obtaining approval

Required Documents

- Lease agreement (after obtaining the necessary approvals from other licensing entities)
- Shop photos

Other Documents

- Cabinet's Decision (56) of the year 2022 regarding the Regulatory Requirements of Construction for various areas in the Kingdom of Bahrain

Supreme Council for Environment (Post) (383-2)

Approval Name	Description	Estimated Time
Environmental Approval for Industrial Activity	Environmental Approval for Industrial Activity	10 Days

Fee Details (if any)

30 Bahraini Dinars or 200 Bahraini Dinars for the fast-track procedure (when the data requested within the EA-2 form is sufficient without the need for additional studies) 4000 Bahraini Dinars or 6000 Bahraini Dinars for the fast-track procedure (when it is required to submit an environmental impact assessment study for the project) + with the additional payment amount of “100 Bahraini Dinars when it is required to submit a proposal for the scope of study before submitting it or 500 Bahraini Dinars for a fast-track procedure when the proposed scope of the study is being submitted before study submitting stage”

License Information

• Assessment Procedures:
- An “Environmental Impact Assessment” form (EA-2) must be filled and submitted as part of the environmental licensing procedures, to identify the environmental impacts associated with the require activity/activities, in order to specify the needed requirements to prevent or mitigate the negative impacts.

- Subject to the information provided in the)EA-2(form, some projects may require preparation and submission of an Environmental Impact Assessment Study that must be prepared by an environmental consultancy office “accredited by the Supreme Council for Environment”; where the scope of the study shall be agreed upon in writing between the Council, the Investor and the Consultant. Each consultant office shall determine its fees for preparing the study.

Required Documents

- Completed Environmental Impact Assessment from (EA-2)

Other Documents

- Law (21) 1996 on the Environment
- Resolution (1) 1998 - Environmental Assessment for Projects
- Resolution (10) 1998 - license fees

Notification Only	Notification to the Industrial development directorate on obtaining a commercial registration with the license to practice the activity.	There is no License Information in this license. Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

The industrial license is automatically issued by the Industrial development Directorate after obtaining the approval of other licensing/approving entities.

Please ensure that the actual production date does no exceed the expected production date.

If actual production will start on or before the expected production date please apply for a “New Industrial Registration” by following the steps below:

1- Visit the Industrial services system (www.industry.bh).
2- Select “Industrial Registration”.
3- Select “New Registration” application.

In the event that the actual production date will exceed the expected production date an “Extension of expected production date” application must be submitted by following the steps below:

1- Visit the Industrial services system (www.industry.bh).

2- Select “Industrial License”.
3- Select “Extension of expected production date” application.

Please note that failure to do so within 60 days from the expected production date will result in a violation to be added.

Sale/Trading Activities; repair of motor vehicles and motorcycles

ISIC4	Business activity
4661-7	Sale/Trade of solid, liquid and gaseous fuels and related products - Direct export of petroleum products

Description

This activity includes purchasing petroleum products directly from Bahrain Petroleum Company (BAPCO) and exporting them according to the supplier's requirements. The petroleum products can be exported directly from the company's dedicated marine berth, such as Sitra International wharf or another approved berth. Additionally, the bitumen/asphalt product can be exported directly from BAPCO's refinery, specifically the refining refinery, to destinations outside Bahrain through the designated land customs outlet, King Fahd Causeway, as per the supplier's requirements.

Prior to commencing this activity, obtaining approval from Bahrain Petroleum Company (BAPCO) is a requirement.

License Information

• In the case of government fueling stations, the allocation contained in the ownership document must be consistent with the project to be established.

• In the case of refueling stations for individuals or private companies:
Approval of Urban Planning & Development Authority on Service Station Activity

Case No. (1)
Refueling station areas (PTR)
• It requires designing the project's engineering maps in accordance with the requirements for gas station areas contained in Articles No. (314-315-316-317-318-319 - 390) of Resolution No. (93) of 2023 issuing regulatory requirements for construction in various regions in the Kingdom of Bahrain and the issued guideline. From Bapco Refining Company to design, construct and operate gas stations and their facilities.
• In cases where the proposed engineering maps do not meet the requirements stipulated in the above-mentioned articles, it is required to obtain planning approval on the suitability of the site for reconstruction from the Urban Planning Affairs and obtain approval from the Oil Affairs and Bapco Refining Company.
•The project is required to be studied from a traffic perspective by the Urban Planning Affairs, and they must prepare specialized studies such as a study of the traffic impacts on the existing road network at various levels or any other studies according to the

following: - In the event that there is no need to prepare a traffic study, it does not require presenting the subject to Special Projects Committee. - If there is a need to prepare a traffic study, it will require presenting the subject to the Special Nature Projects Committee, specifying its type.

Case No. (2)
Project areas of a special nature (SP)
• It is necessary to present the project to the Special Nature Projects (SP) Committee in order to license the project, obtain the necessary approvals, and determine the type of traffic or planning studies (if any).

Case No. (3)
Other classifications
• It is necessary to present the project to the Special Nature Projects (SP) Committee in order to license the project, obtain the necessary approvals, and determine the type of traffic or planning studies (if any).
• It will require changing the classification of the property to a refueling station area (PTR) via the electronic platform for urban planning services “Tatreet”, provided that all required documents and engineering maps for the project are provided. The request will be studied, taking into account all planning aspects of the property and the surrounding area, and changing the classification may require obtaining a Approval of the relevant official authorities, if necessary.

Required Documents

•Copy of Title Deed
•The engineering plan and area table showing the uses, entrances and exits of the proposed station, parking lots, internal traffic, the route of the fuel tanker, building heights, the opening direction of the buildings, shops, and fuel pumps and their proposed number
•Valid Property Survey Document

Sale of Fuel in specialized stores	Sale of Fuel in specialized stores	3 Days

Fee Details (if any)

There is no Estimated Processing Time (Days) in this license.

License Information

- The issuance, cancellation, renewal, and modification procedures are carried out according to the licensing procedures in the registry system.
- In case of relocation to another site, the license must be canceled, and a new license must be obtained.
- Commencing operations without a license is prohibited.
- The activity is prohibited from being conducted on sidewalks, public roads, and setback areas.
- A documented proof of land ownership or a registered lease agreement or a right to use government land must be provided for the construction of the project on the specified land (projects of a special nature).
- The proposed site to be licensed must meet the requirements of safety, security, technical, planning, and environmental aspects as determined by the relevant authorities.
- Approval from the specialized technical committee for fuel stations or an approved specialized company is required for the establishment of the project.
- Submission of proposed engineering technical maps for the project prepared by the approved engineering consultancy office, subject to review, approval, or rejection by the relevant technical parties (in BENAYAT system) .
- A technical certificate indicating the suitability of the fuel station for operation, issued by the supplying company or an approved specialized company, must be provided. The issuance of the suitability certificate should not exceed three months from the time of submitting the commercial registration application; otherwise, a new technical inspection and a new certificate of operational suitability are required.
- A qualification certificate for the management and operation of the fuel station from a

specialized and approved entity must be provided.
- A valid insurance document covering the fuel station, its facilities, maintenance costs, rehabilitation costs, and others is required.
- Station Classification: The area of the project should be suitable for the purpose and type of services provided. The following approximate areas can be used as a guideline:
  - Small station: Area of 2,000 square meters or less.
  - Medium station: Area greater than 2,000 and less than 4,000 square meters.
  - Large station: Area greater than 4,000 square meters.
  Note: The mentioned areas are relative and depend on the type of services provided.
- General criteria for the project site:
  - The site address should have an approved classification (projects of a special nature) and should not conflict with future development plans of the area.
  - The network of streets and roads leading to the station should be prepared (paved) and allow for the safe entry and exit of fuel tankers.
  - The site should be at a safe and sufficient distance from intersections, traffic signals, and roundabouts.
  - The station site should be at a suitable and safe distance from densely populated areas.
  - The number of existing stations near the site, located on the same street or in the opposite direction, should be taken into consideration.
  - If necessary, depending on the site, a risk assessment study may be required as determined by the relevant authorities.

Required Documents

- Attach the station's data form
- If possible, indicate the type of fuel to be offered and other services at the station.
- Land survey certificate for the project’s land
- Obtain a document confirming the fulfillment of the fuel station's requirements for commercial operation from the fuel provider company (BAPCO)
- Ownership contract or lease contract for the land of the project describing the purpose of the lease
- Proposed location map of the station showing entry and exit points.
- Provide the final approved engineering maps of the station
