License Information

Conditions for a press, publishing, and distribution house publishing a newspaper in accordance with the law regulating the press, printing, and publishing:

1. Any company owned by Bahrainis - whose number is not less than five - is entitled to publish a newspaper. The provisions of the law for commercial companies shall apply to such a company.

2. Send a copy of the newspaper, along with a copy of the contract to the Directorate of Publications and Press upon the establishment of the company containing all data pertaining to the company, the editor-in-chief, the title of the newspaper, the language in which it is published, the name of the printing house, and the company's legal representative.

3. The licensee licensed to publish a newspaper must keep regular records showing the newspaper's accounts, the sources of its income, its expenditure and supporting documents.

4. Every newspaper must have an editor-in-chief in charge of the newspaper and who supervises all its contents.

5. The editor-in-chief must be a Bahraini national with certain qualifications.

6. The capital of the company that wishes to publish a newspaper must be not less than one million Bahraini Dinars for a daily newspaper, and not less than two hundred thousand Bahraini Dinars for a non-daily newspaper. In the case of a specialized

newspaper the paid capital must be not less than fifty thousand Bahraini Dinars.

7. The licensee who has been licensed to publish a newspaper must deposit a cash or bank guarantee with the Ministry's treasury within three months of the date of license approval. The guarantee must be not less than ten percent of the paid capital.

8. The names of the licensee the proprietor of the newspaper, the editor-in-chief or the responsible editor, the division he or she supervises, and the name of the printing house if the newspaper does not have its own printing house must all be shown in a prominent place in the newspaper.

License Information

The license application to display animals in zoos, bird parks, children's gardens, animal rental places, circuses or the like must be accompanied by a plan of the facility's location and another detailing its various buildings and facilities along with an operation plan that includes employment
Please refer to the standards of animal welfare practices
o Cruelty to animals
o Animal owner duties
o Conditions for dealing with animals
o Conditions for establishing animal facilities
o Animal transport
o The use of animals for scientific purposes
o Disposal of animals

Operational requirements after obtaining the Business license
1. Each commercial animal facility must appoint a veterinarian permanently, and he must be licensed by the competent authority to practice the veterinary profession, except for the temporary commercial or recreational facilities where the supervision of a veterinarian, a veterinary clinic, or a veterinary hospital is sufficient.
2. The competent authority issues a license for each animal observer in any commercial animal facility by the competent authority after the following conditions are met:
* Conducting a competency test in dealing with animals.
* Animal observers must submit scientific certificates that are duly documented and equivalent in the field of animal care.
* Animal observers are required to have duly documented experience certificates of no less than (5) five years in the same field.
* A duly documented (2) two-year experience certificate for animal observers in the

same field is sufficient.
A- The term of the license shall be according to the type and size of the facility, provided that it does not exceed one year;
3. The license granted to operate the animal facility shall be withdrawn if the license owner violates the Animal Welfare Law of the GCC countries or the regulations issued thereof, or if they violate the license terms issued by the competent authority.

Directorate of Fisheries (Post) (791203-2)

Approval Name	Description	Estimated Time
Pearl Diving License	This license allows for the practice of diving tours which incorporates the extraction of oysters	5 Days

Fee Details (if any)

Application Fee: BD 50
License Fee: BD1000

License Information

The license is valid for one year and must be renewed 15 days before it expires

Pre-Licensing Conditions/ requirements:

• A license from the Marine Monitoring Directorate at the Agriculture and Marine Resources Affairs in the Ministry of Works, Municipalities Affairs and Urban Planning must first be obtained before practicing pearl diving and extraction

• Pearl diving and extraction tours may only be practiced after completing all the requirements by the related official directorate and other relevant entities

Post-Licensing conditions/ requirements:

• Pearl diving and extraction tours may only be practiced through professional instructors who have been pre-approved by the concerned official directorate and other relevant entities

• License holders must provide the General Directorate of Coast Guard with the names of the individuals aboard the ship before the commencement of any pearl diving and

extraction tour

• License holders must make available a professional diving instructor holding a PADI Master certificate or equivalent for every four divers participating in the tour

• License holders must ensure availability of a captain with a recognized certificate, and ensure that the ship's crew members are experienced and trained on first aid for maritime rescue.

• The license may not be transferred to others.

• Provide staff license details to the related official directorate and authorities upon request

• Adhere not to organize any tours except in the boat designated for this purpose as per the license granted for the Center

• To provide any information required by the related official directorate upon request

Other conditions/information:

• In the event oysters will be extracted by a member of the staff, he/she must either hold an “Individual License” from the Marine Monitoring Directorate, or prior to each trip purchase tickets from BTEA

• A maximum of 60 oysters can be collected per diver on board

• Pearl diving and extraction shall only be allowed in the permitted areas in accordance with the provisions of laws, regulations and decrees applied in the Kingdom of Bahrain.

• All pearl diving and extraction tours must commence and end at Ras Rayah Harbour

• License holders must notify the concerned department by registered mail within thirty days from the date of suspending pearl diving and extraction tours and when changing the information related to the license granted to the center.

• License holder must not engage in any fishing or any other activity that violates the license granted

Required Documents

- Boat Captain's Card
- Boat ownership Certificate
- Certificate of Completion of Supreme Council of Environment's Pearl Diving Training Course
- Instructors' PADI Dive Master certificates or equivalent
- Pearl diving license application form

Other Documents

- Chairman of Supreme Council for Environment Order (2) of 2017 with respect to designating Najwat Bulthama as a protected marine area
- Chairman of Supreme Council for Environment Order (3) of 2017 with respect to designating Hayr Bulthama, Hayr Shtayyah, Hayr Bu Ammama and the buffer zone as a protected marine area
- Decree Law (20) of 2002 with respect to the regulation of fishing and exploitation of marine resources
- Ministerial Order (43) of 2017 with respect to the regulation of Pearl Diving

License Information

For an applicant to obtain a license for private educational institution, they should fulfill the following conditions:

If the applicant is a natural person:

1. Must be at least 25 years of age.
2. Must be fully competent and of good conduct. A final court ruling should not have been passed against them in a felony or misdemeanor affecting honor, integrity or public morals, unless they have since been exculpated or exonerated.
3. Must at least have the General Secondary School Certificate or an equivalent.
4. Must be capable of financing the establishment and continued functioning of the private educational or training institution in accordance with the standards and guarantees prescribed and laid down by the Ministry of Education.
5. Must not be a civil servant or an employee of public organizations or private institutions

If applicant is a corporate entity:

In this case, the applicant shall appoint a representative to deal with third parties who shall fulfil the foregoing conditions except for the stipulation (4), provided that they specify in their application the source of finance for the private educational or training institution, as well as their ability to maintain the appropriate finances.

Building Requirements for Private educational or training institutions:

The institution must be in an independent building and meet health, educational, and occupational safety requirements. The final approval for the school building will be given after obtaining approval from the following entities: Ministry of Works, Urban Planning, and Municipality Affairs, Directorate of Civil Defense, and General Traffic Directorate. Other requirements include the following:

1. A suitable health environment and independent premises equipped with furniture and equipment. Approval from the Ministry of Education must be obtained before constructing a new building or adding new facilities.
2. The headquarters of the private educational or training institution may only be transferred after the approval of the Ministry of Education.
3. A residential building/facility may not be established in the private educational or training institution unless an approval from the Ministry of Education is obtained in accordance with its regulations
4. The educational or training institution shall bear a distinguishable name that is approved by the Ministry of Education.

Please refer to Legislative Decree No. (25) of the year 1998 concerning Private Educational and Training Institutions in the “other downloadable documents” for further requirements.

Human health and social work activities

ISIC4	Business activity
873	Residential care activities for the elderly and disabled

Description

This activity includes the provision of residential and personal care services for the elderly and disabled who are unable to fully care for themselves and/or who do not desire to live independently. The care typically includes room, board, supervision, and assistance in daily living, such as housekeeping services. In some instances these units provide skilled nursing care for residents in separate on-site facilities.
This activity includes:
- Activities of:
• Assisted-living facilities
• continuing care retirement communities
• Homes for the elderly with minimal nursing care
• Rest homes without nursing care
This activity excludes:
- Activities of homes for the elderly with nursing care
- Social work activities with accommodation where medical treatment or accommodation are not important elements

License Information

The license application to display animals in zoos, bird parks, children's gardens, animal rental places, circuses or the like must be accompanied by a plan of the facility's location and another detailing its various buildings and facilities along with an operation plan that includes employment
Please refer to the standards of animal welfare practices
o Cruelty to animals
o Animal owner duties
o Conditions for dealing with animals
o Conditions for establishing animal facilities
o Animal transport
o The use of animals for scientific purposes
o Disposal of animals

Operational requirements after obtaining the Business license
1. Each commercial animal facility must appoint a veterinarian permanently, and he must be licensed by the competent authority to practice the veterinary profession, except for the temporary commercial or recreational facilities where the supervision of a veterinarian, a veterinary clinic, or a veterinary hospital is sufficient.
2. The competent authority issues a license for each animal observer in any commercial animal facility by the competent authority after the following conditions are met:
* Conducting a competency test in dealing with animals.
* Animal observers must submit scientific certificates that are duly documented and equivalent in the field of animal care.
* Animal observers are required to have duly documented experience certificates of no less than (5) five years in the same field.

* A duly documented (2) two-year experience certificate for animal observers in the same field is sufficient.
A- The term of the license shall be according to the type and size of the facility, provided that it does not exceed one year;
3. The license granted to operate the animal facility shall be withdrawn if the license owner violates the Animal Welfare Law of the GCC countries or the regulations issued thereof, or if they violate the license terms issued by the competent authority.
